

# Get on Alberta's biggest, fastest mobile network.\*

\*Comparing the TELUS HSPA+ shared network with other HSPA+ national networks as of May 2010, using associated mapping information. As with all wireless technologies, actual speed may vary due to the device being used, network congestion, distance from the cell site, local conditions and other factors. Coverage areas are approximate. Actual coverage and network services can vary and are subject to change. Speed comparison based on data throughput speeds on other national HSPA+ networks in large Canadian urban centres. © 2010 TELUS.
