Overview

This guide provides information on and procedures for using the BlackBerry Wireless Handheld and its applications.

You can integrate your handheld with the following accounts:

- **New or existing ISP email account**: Your handheld is integrated with a new email account, which is provided by your service provider, or an existing Internet service provider (ISP) email account.

- **Enterprise email account**: Your handheld is integrated with your enterprise email account using the BlackBerry Enterprise Server or BlackBerry Desktop Redirector. Messages that you send from your handheld are sent from your existing corporate email account.

Depending on your service provider’s plan or your integration option, your handheld might vary from the depictions in this guide and some applications might not be available on your handheld. Contact your service provider for more information on available services.

Audience

This guide is a reference for BlackBerry Wireless Handheld users.

About this guide
Messages

This section provides information on the following topics:

- Email and PIN messages
  - Opening messages
  - Sending email and PIN messages
  - Managing address book attachments
  - Managing file attachments
  - Setting message options
- SMS messages
  - Opening SMS messages
  - Sending SMS messages
  - Setting SMS message options
- Managing messages
  - Saving messages
  - Deleting messages
  - Reconciling email messages
  - Filing email messages
  - Searching for messages
  - Marking messages
Email and PIN messages

You can send and receive email messages. Email messages that are sent from or received by your handheld are routed through an existing email account.

You can also send and receive PIN messages. A personal identification number (PIN) uniquely identifies each BlackBerry handheld on the network. If you know another person's handheld PIN, you can send a PIN message to that person. PIN messages are not routed through an existing email account.

Tip: To locate your handheld PIN, open the options application. The Options screen appears. Click Status. The PIN field displays your PIN.

Opening messages

You can receive email messages from any email account and you can receive PIN messages from other BlackBerry handheld users.

Long messages are sent to your handheld in sections. As you read the first section, the next section is sent to your handheld automatically.

Open a message

1. Open the messages application. The Messages screen appears.
2. Click a message. A menu appears.
3. Click Open. The message appears.

Tip: If, on the Message List Options screen, you set the Auto More field to No, you can request more of a long message manually. In the open message, click the trackwheel. A menu appears.
   • To request the next section of the message, click More.
   • To request the rest of the message, click More All.
   Refer to "Set message options" on page 21 for more information.
Sending email and PIN messages

Prerequisite: To send messages, the following requirements must be met:
- The wireless coverage indicator must show a level of wireless coverage.
- GPRS must appear with the wireless coverage indicator on the Home screen.

Send a message

1. Open the messages application. The Messages screen appears.
2. Click the trackwheel. A menu appears.
3. Select one of the following options:
   - To send an email message, click Compose Email. The Select Address screen appears.
   - To send a PIN message, click Compose PIN. The Select Address screen appears.
4. Click [Use Once]. A menu appears.

   Select Address screen menu — Email item

5. Select one of the following options:
   - To send an email message, click Email. The One Time Email screen appears.
1: Messages

- To send a PIN message, click PIN. The One Time PIN screen appears.

6. Type an email address or PIN number.
7. Click the trackwheel. A menu appears.
8. Click Continue.

Tip: To add additional contacts to your message, click the trackwheel. Click Add To, Add Cc, or Add Bcc. Repeat steps 2 through 6.

9. In the Subject field, type a subject.
10. Press the Enter key.
11. Type a message.

Tip: To send the message from a specific service (for example, Desktop or Web Client), scroll to the top of the message. In the Using field, press the Space key until the preferred service appears. Any subsequent messages are also sent from this service.

12. Click the trackwheel. A menu appears.
13. Select one of the following options:

- To save a draft of the message without sending it, click Save Draft.
- To send the message, click Send.

If you send a message and you are not in an area of sufficient wireless coverage, the handheld sends the message when you return to an area of sufficient wireless coverage.

Send a message to a contact in your address book
1. Open the address book application. The Find screen appears.

Tip: To search for a contact name, type the first letters of the name.

2. Click a contact. A menu appears.
3. Select one of the following options:
Email and PIN messages

- To send an email message, click Email <contact name>.
- To send a PIN message, click PIN <contact name>.

4. In the Subject field, type a subject.
5. Press the Enter key.
6. Type a message.
7. Click the trackwheel. A menu appears.
8. Click Send. The message is sent.

Send an email message using a link
Links to email addresses appear as underlined text.
1. Click an email address link. A menu appears.
2. Click Email.
3. In the Subject field, type a subject.
4. Press the Enter key.
5. Type a message.
6. Click the trackwheel. A menu appears.
7. Click Send. The message is sent.

Reply to a message
1. Open the messages application. The Messages screen appears.
2. Click a message. A menu appears.
3. Click Open.
4. Click the trackwheel. A menu appears.
5. Select one of the following options:
   - To reply to only the sender, click Reply.
1: Messages

• To reply to the sender and all recipients of the original message, click **Reply To All**.

**Tip:** To delete the original message from the reply, click the trackwheel. A menu appears. Click **Delete Original Text**

6. Type a message.
7. Click the trackwheel. A menu appears.
8. Click **Send**. The message is sent.

**Forward a message**

1. Open the messages application. The Messages screen appears.
2. Click a message. A menu appears.
3. Click **Forward**. The Select Address screen appears.
4. Click a contact. A menu appears.
5. Select one of the following options:
   • To send an email message, click **Email <contact name>**.
   • To send a PIN message, click **PIN <contact name>**.
6. Type a message.
7. Click the trackwheel. A menu appears.
8. Click **Send**. The message is sent.

**Resend a message**

1. Open the messages application. The Messages screen appears.
2. Click a sent message. A menu appears.
3. Click **Open**. The message appears.
4. Click the trackwheel. A menu appears.
5. Click **Resend**. The message is sent.
Email and PIN messages

Edit and resend a message
1. Open the messages application. The Messages screen appears.
2. Click a sent message. A menu appears.
3. Click Open. The message appears.
4. Click the trackwheel. A menu appears.
5. Click Edit. The message appears.
6. Edit the message.
7. Click the trackwheel. A menu appears.
8. Click Send. The message is sent.

Managing address book attachments
You can send and receive messages with address book attachments. An address book attachment contains contact information that recipients of the message can view and add to their address book.

Send an address book attachment
1. Open the messages application. The Messages screen appears.
2. Click the trackwheel. A menu appears.
3. Select one of the following options:
   - To send an email message, click Compose Email. The Select Address screen appears.
   - To send a PIN message, click Compose PIN. The Select Address screen appears.
4. Click a contact. A menu appears.
5. Select one of the following options:
1: Messages

- To send an email message, click Email <contact name>.
- To send a PIN message, click PIN <contact name>.

6. Type a message.
7. Click the trackwheel. A menu appears.
8. Click Attach Address. The Attach screen appears.
9. Click a contact. A menu appears.
10. Click Continue. The contact information is attached to the message.

11. Click the trackwheel. A menu appears.
12. Click Send. The message and attachment are sent.

Open an address book attachment

1. In a message with an address book attachment, place your cursor in the name of the address book attachment.
Email and PIN messages

2. Click the trackwheel. A menu appears.

3. Click View Attachment. The contact information appears.

4. Click the trackwheel. A menu appears.

5. Select one of the following options:
   - To add the contact information to your address book, click Add To Address Book.
   - To update the contact information that is in your address book, click Update Address.
   - To return to the open message, click Close.
Managing file attachments

If the attachment service is loaded on your handheld, you can open file attachments on your handheld. You can open attachments with a .zip, .html, .doc, .ppt, .pdf, .wpd, .txt, or .xls file extension.

Prerequisite: To open file attachments with a .doc, .ppt, .wpd, .txt, or .xls file extension, the following requirements must be met:

• Your handheld must be integrated with an enterprise email account.
• Your handheld must be enabled for attachment service on a BlackBerry Enterprise Server version 3.6 or later for Microsoft Exchange or a BlackBerry Enterprise Server version 2.2 or later for Lotus Domino.

To open file attachments with a .zip or .html file extension, the following additional requirement must be met:

• Your handheld must be enabled for attachment service on a BlackBerry Enterprise Server version 3.6 Service Pack 1 or later for Microsoft Exchange or a BlackBerry Enterprise Server version 2.2 Service Pack 2 or later for Lotus Domino.

Open the table of contents of a file attachment

1. In a message with a file attachment, click the trackwheel. A menu appears.
2. Click Open Attachment. The Attachments screen appears.
3. Click **Table of Contents**. A menu appears.
4. Click **Retrieve**. The table of contents appears.

**Tip:** To request the content for a table of contents item, click the item. A menu appears. Click **Retrieve**. The content appears.

### Open a file attachment
1. In a message with a file attachment, click the trackwheel. A menu appears.
2. Click **Open Attachment**. The Attachment screen appears.

**Note:** If you retrieve a .pdf file that is password protected, you must type the password. On the Attachment screen, click the trackwheel. A menu appears. Click **Password**. Type the password. Click the trackwheel. The Attachment screen appears.

3. Click **Full Content**. A menu appears.
4. Click **Retrieve**. The content appears.

**Tip:** In document format, links to tables appear as underlined text. To open a table, click a table link. A menu appears. Click **Retrieve**.

### Navigate in spreadsheet format
1. In spreadsheet format, click the trackwheel. A menu appears.
2. Select one of the following options:
   - To move to a specific worksheet, click **Select Worksheet**. A dialog box appears. Click a worksheet.
   - To view the previous worksheet, click **Prev Sheet**.
   - To view the next worksheet, click **Next Sheet**.
   - To move to a specific cell, click **Go to Cell**. A dialog appears. Type the cell coordinates (for example, C16). Click the trackwheel.
   - To view the contents of a cell, click **View Cell**.
Set file attachment options

1. In a file attachment, click the trackwheel. A menu appears.
2. Click Options. The Options screen appears.
3. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sheet Outline Cells</td>
<td>Set whether the grid appears in spreadsheet format.</td>

<td>Set how much handheld memory can be used by attachments that you have viewed on your handheld.</td>
<td>500KB</td>
</tr>
</tbody>
</table>

4. Click the trackwheel. A menu appears.
5. Click Save. The options are saved.
Setting message options

Prerequisite: To set the Hide Filed Messages and Delete On options, your handheld must be integrated with an enterprise email account.

To set the Wireless Reconcile and Conflicts options, one of the following requirements must be met:

• Enterprise email account: Your handheld must be enabled for wireless email reconciliation on a BlackBerry Enterprise Server version 3.6 or later for Microsoft Exchange or a BlackBerry Enterprise Server version 2.2 or later for Lotus Domino.

• New or existing ISP email account: Your handheld must be enabled for wireless email reconciliation on the BlackBerry Web Client.

Set message options

1. Open the messages application. The Messages screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Message List Options screen appears.
4. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Display Time</td>
<td>Set whether the Messages screen displays the time that a message is sent or received.</td>
<td>Yes</td>
</tr>
<tr>
<td>Display Name</td>
<td>Set whether the Messages screen displays the name of the sender or recipient.</td>
<td>Yes</td>
</tr>
<tr>

</table>

4. Click the trackwheel. A menu appears.

5. Click Save. The option is saved.
SMS messages

If you have an SMS-compatible phone number, you can send and receive short message service (SMS) messages. An SMS-compatible number is a phone number (work, home, mobile, or pager) that your service provider has enabled for SMS.

Tip: To locate the SMS-compatible number for your handheld, open the options application. The Options screen appears. Click SIM Card. The Phone Number field displays your SMS-compatible number.

Opening SMS messages

Open an SMS message

1. Open the messages application. The Messages screen appears.
2. Click an SMS message. A menu appears.
3. Click Open. The message appears.

<table>

1: Messages

Sending SMS messages
You can send SMS messages to contacts who have an SMS-compatible phone number. SMS messages can contain up to 160 characters.

If your service provider supports SMS concatenation, an SMS message that contains more than 160 characters, is sent over the wireless network in multiple, successive messages that appear on your handheld as one message. The number of characters that you type, and the number of messages that are required to send your message, appear in the upper right corner of the screen.

Prerequisite: To send SMS messages, the following requirements must be met:
- The wireless coverage indicator should show a level of wireless coverage.
- GPRS, gprs, or GSM must appear with the wireless coverage indicator on the Home screen.

Send an SMS message
1. Open the messages application. The Messages screen appears.
2. Click the trackwheel. A menu appears.
3. Click Compose SMS. The Select Address screen appears.
4. Click [Use Once]. A menu appears.
5. Click **SMS**. The One Time SMS screen appears.

6. Type your contact's SMS-compatible phone number.

   **Tip:** When you type an SMS-compatible number, include the country code and the area code. If you have set your smart dialing options in the phone application, you do not need to type the country code and area code. Refer to "Setting smart dialing options" on page 65 for more information.

7. Click the trackwheel. A menu appears.

8. Click **Continue**.

9. Type a message.

10. Click the trackwheel. A menu appears.

11. Click **Send**. The message is sent.

If you send a message and you are not in an area of sufficient wireless coverage, the handheld sends the message when you return to an area of sufficient wireless coverage.

   **Note:** Sending an SMS message to a wireless device that is registered on a different wireless network might not function as expected. Contact your service provider for more information on sending SMS messages between wireless networks.
1: Messages

Send an SMS message to a contact in your address book
1. Open the address book application. The Find screen appears.
2. Click a contact with an SMS-compatible number. A menu appears.
3. Click SMS <contact name>.
4. Type a message.
5. Click the trackwheel. A menu appears.
6. Click Send. The message is sent.

Reply to an SMS message
1. Open the messages application. The Messages screen appears.
2. Click an SMS message. A menu appears.
3. Click Reply.

Tip: To delete the previous messages from the screen, click the trackwheel. A menu appears. Click Remove History.
4. Type a message.
5. Click the trackwheel. A menu appears.
6. Click Send. The message is sent.

Forward an SMS message
1. Open the messages application. The Messages screen appears.
2. Click an SMS message. A menu appears.
3. Click Forward. The Select Address screen appears.
4. Click a contact with an SMS-compatible number. A menu appears.
5. Click SMS <contact name>.
6. Type a message.
7. Click the trackwheel. A menu appears.
8. Click Send. The message is sent.

Resend an SMS message
1. Open the messages application. The Messages screen appears.
2. Click an SMS message. A menu appears.
3. Click Open. The message appears.
4. Click the trackwheel. A menu appears.
5. Click Resend. The message is sent.

Setting SMS message options
1. Open the options application. The Options screen appears.
2. Click SMS. The SMS screen appears.
3. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leave messages on SIM Card</td>
<td>Set whether SMS messages are saved on your SIM card.</td>
<td>No</td>
</tr>
<tr>
<td>Delivery Reports</td>
<td>Set whether you receive notification when your SMS message is delivered to the contact.</td>
<td>Off</td>
</tr>
<tr>
<td>Validity Period</td>
<td>Set how long the service center keeps an SMS message if it cannot be delivered to your contact immediately.</td>
<td>Max</td>
</tr>
<tr>
<td>Sent As</td>
<td>Set the type of SMS message to send.</td>
<td>Text</td>

<tr>
<td>Number of Previous Items</td>
<td>Set the number of previous SMS messages that appear when you view an SMS message.</td>
<td>7</td>
</tr>
<tr>
<td>Service Center</td>
<td>This field displays the phone number for the service center through which your SMS messages are sent.</td>
<td>-</td>
</tr>
</tbody>
</table>
4. Click the trackwheel. A menu appears.

5. Click **Save**. The options are saved.

**Note:** Depending on your service provider’s plan, some SMS message options might not be available on your handheld. Contact your service provider for information on available options.

### Managing messages

#### Saving messages
You can save important messages in the saved messages application. If your handheld must delete messages to free memory, it does not delete saved messages.

**Save a message**
1. Open the messages application. The Messages screen appears.
2. Click a message. A menu appears.
3. Click **Save**. The message is saved.

#### Deleting messages
You should delete unnecessary messages from your handheld. If your handheld memory is full, your handheld deletes the oldest messages from the messages application to accommodate new ones.
Delete a message

i Note: If, on the Message List Options screen, the Delete On option is set to Mailbox & Handheld, messages that you delete on your handheld are also deleted from your computer during email reconciliation. Refer to "Set message options" on page 21 for more information.

1. Select one of the following options:
   • To delete a message from the messages application, open the messages application. The Messages screen appears.
   • To delete a saved message, open the saved messages application. The Saved Messages screen appears.
2. Click a message. A menu appears.
3. Click Delete. A dialog box appears.
4. Click Delete. The message is deleted.

Delete messages prior to a specific date

1. Select one of the following options:
   • To delete messages from the messages application, open the messages application. The Messages screen appears.
   • To delete saved messages, open the saved messages application. The Saved Messages screen appears.
2. Click a date. A menu appears.
3. Click Delete Prior. A dialog box appears.
4. Click Delete. The messages are deleted.

Note: Email messages that are deleted using the Delete Prior menu item are not deleted from your computer during email reconciliation.
Empty the deleted messages folder on your computer from your handheld

Prerequisite: To delete messages from the Deleted Items folder on your computer, the following requirements must be met:

- Your handheld must be integrated with an enterprise email account.
- Your handheld must be enabled on the BlackBerry Enterprise Server version 3.6 or later for Microsoft Exchange.
- Wireless email reconciliation must be enabled on your handheld. Refer to "Set message options" on page 21 for more information.

1. Open the messages application. The Messages screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Message List Options screen appears.
4. Click the trackwheel. A menu appears.
5. Click Purge Deleted Items. A dialog box appears.
6. Click Yes. The Deleted Items folder on your computer is emptied.

Reconciling email messages

When email messages are reconciled, any message that you open, file, or delete on your handheld is also opened, filed, or deleted on your computer depending on how you set your message options.

Lotus Domino
If you use Lotus Notes, opened and unopened messages are not reconciled between your computer and your handheld.

Microsoft Exchange
If wireless email reconciliation is not enabled on your handheld, you must use the BlackBerry Desktop Software to reconcile your handheld and desktop messages. Refer to the Desktop Software: Intellisync Help for more information.
Managing messages

If wireless email reconciliation is enabled on your handheld, your handheld and desktop messages are reconciled over the wireless network automatically. Refer to “Set message options” on page 21 for more information on enabling wireless email reconciliation.

Tip: If wireless email reconciliation is enabled on your handheld, and there are messages that have not been reconciled between your desktop and handheld, you can reconcile email messages manually. Open the messages application. The Messages screen appears. Click the trackwheel. A menu appears. Click Reconcile Now.

Filing email messages

Prerequisite: To file email messages, the following requirements must be met:
- Your handheld must be integrated with an enterprise email account using the BlackBerry Enterprise Server or BlackBerry Desktop Redirector.
- You have folders in your desktop email program.
- You reconciled your email messages so that the folders from your desktop email program appear on your handheld.

File an email message
1. Open the messages application. The Messages screen appears.
2. Click an email message. A menu appears.
3. Click File. The Select Folder screen appears.
1: Messages

4. Click a folder. A menu appears.

Tip: To expand a folder on the Select Folder screen, click a folder with a plus sign (+) beside it. A menu appears. Click Expand.

To collapse a folder, click a folder with a minus sign (-) beside it. A menu appears. Click Collapse.

5. Click File. The message is filed.

Tip: To display filed messages on the Messages screen, set the Hide Filed Messages option on the Message List Options screen to No.

To remove a filed message from a folder, file the message in the Inbox folder.

Searching for messages

Search for a message

1. Open the search messages application. The Search screen appears.
Managing messages

2. In one or more of the following fields, type message information:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name</td>
<td>Type a name, email address, PIN, or phone number.</td>
</tr>
<tr>
<td>Subject</td>
<td>Type text that the handheld should search for in the subject of messages.</td>
</tr>
<tr>
<td>Message</td>
<td>Type text that the handheld should search for in the body of messages.</td>
</tr>
</tbody>
</table>

3. In one or more of the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>In</td>
<td>Set the address field in which you want to search.</td>
<td>Any Address Field</td>
</tr>
<tr>
<td>Folder</td>
<td>Set the folder in which you want to search. To select a folder, press the Space key. The Select Folder screen appears. Click a folder. A menu appears. Click Select Folder.</td>
<td>All Folders</td>
</tr>
<tr>
<td>Show</td>
<td>Set whether you want to search for sent, received, or saved messages.</td>
<td>Sent and Received</td>
</tr>
<tr>
<td>Type</td>
<td>Set the type of message for which you want to search.</td>
<td>All</td>
</tr>
</tbody>
</table>
1: Messages

4. Click the trackwheel. A menu appears.

5. Select one of the following options:
   - To perform a search without saving the search criteria, click **Search**.
   - To save the search criteria, click **Save**. The Save Search screen appears. Type a name and a shortcut key for your search. Click the trackwheel. A menu appears. Click **Save**.

**View, edit, or delete a saved search**

1. Open the search messages application. The Search screen appears.

2. Click the trackwheel. A menu appears.

3. Click **Recall**. Your saved searches appear.

4. Click a search. A menu appears.

5. Select one of the following options:
   - To view the search criteria, click **Select Search**.
   - To edit the search criteria, click **Edit Search**. Edit the search criteria. Click the trackwheel. A menu appears. Click **Save**.
   - To delete the search, click **Delete Search**. A dialog box appears. Click **Delete**.

**Tip:** To view the criteria of your last search quickly, on the Search screen, click the trackwheel. Click **Last**. The Search screen displays the criteria of the last search that you performed.

**Search for a message by sender, recipient, or subject**

1. Open the messages application. The Messages screen appears.

2. Click a message. A menu appears.

3. Select one of the following options:
Managing messages

• To search for all messages that relate to the sender of the selected message, click Search Sender.

• To search for all messages that relate to the recipient of the selected message, click Search Recipient.

• To search for messages with the same subject as the selected message, click Search Subject.

Marking messages

Mark a message as unopened or opened
1. Open the messages application. The Messages screen appears.
2. Click a message. A menu appears.
3. Select one of the following options:
   • To mark the message as opened, click Mark Opened.
   • To mark the message as unopened, click Mark Unopened.

Mark messages prior to a specific date as opened
1. Open the messages application. The Messages screen appears.
1: Messages

2. Click a date. A menu appears.
3. Click Mark Prior Opened. All messages prior to the selected date are marked as opened.
Address book

This section provides information on the following topics:

- Adding contacts
- Managing the address book
- Setting address book options
- Managing the SIM card phone book
Adding contacts

You can import contacts from your desktop email program. Refer to the Desktop Software: Backup and Restore Help for more information.

Create a contact

1. Open the address book application. The Find screen appears.
2. Click the trackwheel. A menu appears.

4. In one or more of the following fields, type contact information:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Salutation</td>
<td>Type a salutation (for example, Mr., Ms., Dr.).</td>
</tr>
<tr>
<td>First</td>
<td>Type a first name.</td>
</tr>
<tr>
<td>Last</td>
<td>Type a last name.</td>
</tr>
<tr>
<td>Email</td>
<td>Type an email address. Press the Space key to insert the at sign (@); press it again to insert a period. To add more than one email address for the contact, click the trackwheel. Click Add Email Address.</td>
</tr>
<tr>
<td>Company</td>
<td>Type a company name.</td>
</tr>
</tbody>
</table>
5. Click the trackwheel. A menu appears.

6. Click **Save**. The contact is saved.

---

### Adding contacts

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Title</strong></td>
<td>Type a job title.</td>
</tr>
</tbody>
</table>
| **Work, Home, Mobile, Pager** | Type the appropriate phone number.  
▷ To insert an extension, type `x` or `ext`. Type the extension number.  
You can use a wait or pause to separate additional numbers (for example, a password or extension) from the main number. When the phone number is dialed, your handheld either pauses before dialing the additional numbers (pause) or prompts you to type them (wait).  
▷ To insert a pause or wait, click the trackwheel. A menu appears. Click **Add Wait** or **Add Pause**. Type the additional numbers. |
| **Fax**             | Type a fax number.                                                          |
| **PIN**             | Type a BlackBerry handheld personal identification number.                  |
| **Address 1**       | Type a street address.                                                      |
| **Address 2**       | Type any additional address information.                                    |
| **City**            | Type a city.                                                                |
| **State/Prov**      | Type a state or province.                                                   |
| **ZIP/Postal Code** | Type a ZIP code or postal code.                                             |
| **Country**         | Type a country.                                                             |
| **User 1, User 2, User 3, User 4** | Type additional information (for example, a birthday or anniversary).  
▷ To change the name of a user-defined field for all contacts, click the trackwheel. A menu appears. Click **Change Field Name**. |
| **Notes**           | Type any notes.                                                             |
Create a group
After you create contacts, you can create a group. If you send an email message to a group, the message is sent to all group members at the same time.

1. Open the address book application. The Find screen appears.
2. Click the trackwheel. A menu appears.
4. Type a group name.
5. Click the trackwheel. A menu appears.
6. Click Add Member. The Select Address screen appears.
7. Click a contact. A menu appears.
8. Click Continue. The New Group screen appears with the contact added as a new member.
9. To add more contacts to your group, repeat steps 5 through 8.
10. Click the trackwheel. A menu appears.
11. Click Save Group. The group is saved.

Add contact information from the Messages screen
You can add a sender’s email address or PIN from a message and the phone number of a caller or contact from a phone call log.

1. Open the messages application. The Messages screen appears.
2. Click a message or phone call log. A menu appears.
3. Click Open. The message or phone call log appears.
4. Click the trackwheel. A menu appears.
5. Click Add To Address Book. The New Address screen appears.
6. Type contact information.
Adding contacts

7. Click the trackwheel. A menu appears.
8. Click Save. The contact is saved.

**Add contact information from the Phone screen**
1. Open the phone. The Phone screen appears.
2. Click a phone number. A menu appears.
3. Click Add To Address Book. The New Address screen appears.
4. Type contact information.
5. Click the trackwheel. A menu appears.
6. Click Save. The contact is saved.

**Add contact information from a link**
Links for email addresses and phone numbers appear as underlined text.
1. Click an email address or phone number link. A menu appears.
2. Click Add To Address Book. The New Address screen appears.
3. Type contact information.
4. Click the trackwheel. A menu appears.
5. Click Save. The contact is saved.

**Add contact information from your SIM card phone book**
1. Open the address book application. The Find screen appears.
2. Click the trackwheel. A menu appears.
3. Click SIM Phone Book. The Find screen appears.
4. Click a contact. A menu appears.
2. Address book

5. Click Add To Address Book. The ADN Phonebook Entry screen appears.
6. Click the trackwheel. A menu appears.
7. Click Save. The contact is saved.

Managing the address book

Open a contact or group
1. Open the address book application. The Find screen appears.
2. Select one of the following options:
   • Click a contact. A menu appears. Click View. The contact information appears.
   • Click a group. A menu appears. Click View Group. The group member list appears.

   Tip: To view information for a contact in the group, click the contact. A menu appears. Click View Member.

Edit a contact
1. Open the address book application. The Find screen appears.
2. Click a contact. A menu appears.
3. Click Edit. The Edit Address screen appears.
4. Edit the contact information.
5. Click the trackwheel. A menu appears.
6. Click Save. The edited contact is saved.

Edit a group
1. Open the address book application. The Find screen appears.
Managing the address book

2. Click a group. A menu appears.
3. Click Edit Group. The Edit Group screen appears.
4. Click a contact. A menu appears.
5. Select one of the following options:
   • To delete the contact, click **Delete Member**. A dialog box appears. Click **Delete**. Proceed to step 8.
   • To replace the contact with another contact, click **Change Member**. The Select Address screen appears.
   • To add a contact, click **Add Member**. The Select Address screen appears.
6. Click a contact. A menu appears.
7. Click **Continue**. The Edit Group screen appears.
8. Click the trackwheel. A menu appears.
9. Click **Save Group**. The edited group is saved.

**Delete a contact or group**

If you delete a group, the individual contacts still appear in your address book.

1. Open the address book application. The Find screen appears.
2. Select one of the following options:
   • Click a contact. A menu appears. Click **Delete**.
   • Click a group. A menu appears. Click **Delete Group**.
     A dialog box appears.
3. Click **Delete**. The contact or group is deleted.
2: Address book

Search for a contact in a remote address book

You can search for contact information in your company's Global Address List or Notes Address Book.

Prerequisite: To search for contacts in a remote address book, the following requirements must be met:
- Your handheld must be integrated with an enterprise email account.
- Your handheld must be enabled for Remote Address Lookup on a BlackBerry Enterprise Server version 3.5 or later for Microsoft Exchange or a BlackBerry Enterprise Server version 2.2 or later for Lotus Domino.

1. Open the address book application. The Find screen appears.
2. Type a contact name.
3. Click the trackwheel. A menu appears.
4. Click Lookup. The Find screen displays the search status and indicates when the search is complete.
5. Click the trackwheel. A menu appears.
6. Click View Lookup. The results of your search appear.
7. Click a contact. A menu appears.
8. Click one of the following menu items:

<table>
<thead>
<tr>
<th>Menu item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lookup</td>
<td>enables you to specify or edit search criteria</td>
</tr>
<tr>
<td>Resolve</td>
<td>adds the selected contact to your address book temporarily</td>
</tr>
<tr>
<td>Add</td>
<td>adds the selected contact to your address book</td>
</tr>
<tr>
<td>Add All</td>
<td>adds all the contacts to your address book</td>
</tr>
<tr>
<td>Delete</td>
<td>deletes the selected contact from the search results</td>
</tr>
<tr>
<td>Delete Lookup</td>
<td>deletes the search results</td>
</tr>
<tr>
<td>View</td>
<td>displays the selected contact's information</td>
</tr>
<tr>
<td>Get More Results</td>
<td>requests more search results from the BlackBerry Enterprise Server (the server sends a maximum of 20 results at one time)</td>
</tr>
</tbody>
</table>
Setting address book options

1. Open the address book application. The Find screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Address Book Options screen appears.
4. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Option</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sort By</td>
<td>Set how your contacts are sorted.</td>
<td>First Name</td>
</tr>
<tr>
<td>Confirm Delete</td>
<td>Set whether you are prompted before contacts are deleted.</td>
<td>Yes</td>
</tr>
<tr>
<td>Allow Duplicate Names</td>
<td>Set whether the same name can appear more than once in your address book.</td>
<td>Yes</td>
</tr>
</tbody>
</table>

5. Click the trackwheel. A menu appears.
6. Click Save. The options are saved.

Managing the SIM card phone book

You can access the abbreviated dialing numbers (ADNs) and service dialing numbers (SDNs) that are saved on your SIM card.

Prerequisite: To view the SIM card phone book, you must have the phone application on your handheld.
To create or edit SIM card contacts, your SIM card must be provisioned appropriately.

View the SIM card phone book
1. Open the address book application. The Find screen appears.
2. Address book

2. Click the trackwheel. A menu appears.
3. Click SIM Phone Book. ADN entries appear in plain text and SDN entries appear in bold.

Create a SIM card contact
1. Open the address book application. The Find screen appears.
2. Click the trackwheel. A menu appears.
3. Click SIM Phone Book. The Find screen appears.
4. Click the trackwheel. A menu appears.
5. Click New. The ADN Phonebook Entry screen appears.
6. In the Name field, type a name.
7. In the Phone field, type a phone number.
8. Click the trackwheel. A menu appears.
9. Click Save. The contact is saved.

Edit a SIM card contact
1. Open the address book application. The Find screen appears.
2. Click the trackwheel. A menu appears.
3. Click SIM Phone Book. The Find screen appears.
4. Click a contact. A menu appears.
5. Click Edit. The ADN Phonebook Entry screen appears.
6. Edit the contact information.
7. Click the trackwheel. A menu appears.
8. Click Save. The edited contact is saved.

Delete a SIM card contact
1. Open the address book application. The Find screen appears.
Managing the SIM card phone book

2. Click the trackwheel. A menu appears.
3. Click **SIM Phone Book**. The Find screen appears.
4. Click a contact. A menu appears.
5. Click **Delete**. A dialog box appears.
6. Click **Delete**. The contact is deleted.
2: Address book
Phone

Depending on your service provider’s plan, the phone or some of its features might not be available on your handheld. Contact your service provider or network operator for more information on available services.

This section provides information on the following topics:

- Making phone calls
- Answering phone calls
- Using phone features
- Managing phone call logs
- Setting phone options
- Viewing phone information
Making phone calls

Prerequisite: To make a phone call, the following requirements must be met:
• The wireless coverage indicator must show a level of wireless coverage.
• GPRS, gprs, or GSM must appear with the wireless coverage indicator on the Home screen.

Make a call

Note: If you are using a headset, insert the headset connector into the headset jack at the top of the handheld.

1. Open the phone. The Phone screen appears.

2. Click One Time Dial. The Enter Phone Number dialog box appears.

Tip: On the Phone screen, you can also press the Space key to open the Enter Phone Number dialog box.

3. Type a phone number.

Tip: To type a phone number extension, hold the 8 key until the letter x appears. Type the phone number extension.

4. Click Call. The phone number is dialed.
Making phone calls

5. To end the call, hold the Escape button.

Call a contact that appears on your Phone screen

The Phone screen lists the contact names or phone numbers for your last 20 calls.
1. Open the phone. The Phone screen appears.
2. Click a contact or a phone number. A menu appears.
3. Click Call <contact name or phone number>. The phone number is dialed.
4. To end the call, hold the Escape button.

Tip: To delete a contact or a phone number that appears on the Phone screen, click the contact or the phone number. A menu appears. Click Delete.

Call a contact in your address book

1. Open the phone. The Phone screen appears.
2. Type the first letters of a contact. Contacts that start with these letters appear.
3: Phone

3. Click a contact. A menu appears.
4. Click Call **<contact name>**. The phone number is dialed.
5. To end the call, hold the Escape button.

**Call a contact using a link**
In messages and on web pages, phone numbers appear as links.
1. Click a phone number link. A menu appears.
2. Click Call. The phone number is dialed.
3. To end the call, hold the Escape button.

**Call an emergency phone number**
You can call an emergency phone number even when your handheld is locked or the SIM card is not inserted. If you call an emergency phone number when the radio is off, the radio turns on automatically.

⚠️ **Warning:** If your handheld is locked, you can only make calls to emergency numbers (for example, 911 or 112).

1. Select one of the following options:
   - Open the phone. The Phone screen appears. Click **One Time Dial**.
   - If your handheld is locked, click the trackwheel. A dialog box appears. Click **Emergency Call**. A dialog box appears. Click Yes.
2. Type an emergency phone number (for example, 911 or 112).
3. Click the trackwheel. The emergency number is dialed.
4. To end the call, hold the Escape button.
Call your voice mail
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Call Voice Mail.
   • If a voice mail access phone number is available, your voice mail access number is dialed.
   • If a voice mail access phone number is not available, a dialog box appears. Type your voice mail access number. Click the trackwheel. Your voice mail access number is dialed.
4. To end the call, hold the Escape button.

Tip: To call your voice mail quickly, in the phone, press and hold 1.

Answering phone calls

Answer a call
1. In the dialog box that appears when you receive a call, select one of the following options:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Answer</td>
<td>answers the incoming call</td>
</tr>
<tr>
<td>Answer and Hold</td>
<td>answers the incoming call and places it on hold</td>
</tr>
<tr>
<td>Answer - Drop Current</td>
<td>ends the current call and answers the incoming call</td>
</tr>
<tr>
<td>Answer - Hold Current</td>
<td>places the current call on hold and answers the incoming call</td>
</tr>
<tr>
<td>Answer - Drop All</td>
<td>ends all current calls and answers the incoming call</td>
</tr>
<tr>
<td>Ignore</td>
<td>ignores the incoming call</td>
</tr>
</tbody>
</table>

2. To end the call, hold the Escape button.
Using phone features

Adjust the volume
1. On the Active Call screen, select one of the following options:
   • To increase the volume, roll the trackwheel up.
   • To decrease the volume, roll the trackwheel down.

   Tip: To adjust the volume while you are using another handheld application, click the trackwheel. A menu appears. Click Volume. Roll the trackwheel up or down to change the volume.

Place a call on hold
1. During a call, click the trackwheel. A menu appears.
2. Click Hold. The call is placed on hold.
3. To resume the call, click the trackwheel. A menu appears.
4. Click Resume. The call is resumed.

Mute a phone call
If you mute a phone call, you can hear your contact, but your contact cannot hear you.
1. During a call, click the trackwheel. A menu appears.
2. Click Mute. A tone sounds and the call is muted.
3. To turn the mute feature off, click the trackwheel. A menu appears.
4. Click Turn Mute Off. A tone sounds and the mute feature is turned off.
Alternate between phone calls
If you are connected to two phone calls and you want to alternate between them, you can swap calls.
1. During a call, click the trackwheel. A menu appears.
2. Click Swap. The calls are swapped.

Make a conference call
You can talk to multiple contacts at one time.

Prerequisite: To use this feature, you must subscribe to a conference call service. Contact your service provider for more information.

1. During a call, click the trackwheel. A menu appears.
2. Click New Call. The Select Address screen appears and the current call is placed on hold.
3. Click a contact. A menu appears.
4. Click Call <contact name>. The phone number is dialed.
5. During the second call, click the trackwheel. A menu appears.
6. Click Join. You are connected to both calls.
   • To add another contact to your call, click the trackwheel. A menu appears. Click Hold. Repeat steps 1 through 4.
   • To speak privately with one contact, click the trackwheel. A menu appears. Click Split Call. The Select Call dialog box appears. Click a contact.
   • To disconnect one contact, click the trackwheel. A menu appears. Click Drop Call. The Select Call dialog box appears. Click a contact.
7. To end the conference call, hold the Escape button.
Use other applications during a call
If you use a headset with your handheld, you can use other applications during a phone call. You can compose email and PIN messages, but you cannot send or receive them until the call ends.

1. On the Active Call screen, click the trackwheel. A menu appears.
2. Click Hide Call. The Home screen appears.

Note: To end the call while you are using another application, click the trackwheel. A menu appears. Click End Call.

Use alpha-dialing
When you call a contact, your handheld enters number-lock mode. You can use the alpha-dialing feature to type letters when you enter a phone number or while you are on a call.

- To type one letter, press the Right Shift key. Press the letter key.
- To type multiple letters, press the Alt key + the Right Shift key. Your handheld enters character mode. To turn off character mode, press the Right Shift key again.

Managing phone call logs
The handheld creates a phone call log after each phone call. Phone call logs appear on the Messages screen and contain information about the call, including the date and time, duration, caller or recipient information, and any call notes.

Open a phone call log
1. Open the messages application. The Messages screen appears.
2. Click a phone call log. A menu appears.
3. Click Open. The phone call log appears.
Managing phone call logs

Create or edit phone call notes

After a call ends, you can create call notes to record the details of your call.

Tip: If you use a headset with the handheld, you can add call notes during a call. Click the trackwheel. A menu appears. Click Notes. Type your notes. The notes are saved when the call ends.

1. Open the messages application. The Messages screen appears.
2. Click a phone call log. A menu appears.
3. Click Open. The View Call Log screen appears.
4. Click the trackwheel. A menu appears.
5. Select one of the following options:
   • To create call notes, click Add Notes. Type call notes.
   • To edit call notes, click Edit Notes. Edit the call notes.
6. Click the trackwheel. A menu appears.
7. Click Save Notes. The call notes are saved.
3: Phone

Forward a phone call log
1. Open the messages application. The Messages screen appears.
2. Click a phone call log. A menu appears.
3. Click Forward. The Select Address screen appears.
4. Click a contact. A menu appears.
5. Click Email <contact name>.
6. Type a message.
7. Click the trackwheel. A menu appears.
8. Click Send. The phone call log is forwarded.

Delete a phone call log
1. Open the messages application. The Messages screen appears.
2. Click a phone call log. A menu appears.
3. Click Delete. A dialog box appears.
4. Click Delete. The phone call log is deleted.

Search for a phone call log
1. Open the search messages application. The Search screen appears.
2. In one or more of the following fields, type phone call log information:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name</td>
<td>Type a name or phone number.</td>
</tr>
<tr>
<td>Message</td>
<td>Type any text that you want the handheld to search for in call notes.</td>
</tr>
</tbody>
</table>
Setting phone options

3. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Folder</td>
<td>Set the folder in which you want to search. To select a folder, press the Space key. The Select Folder screen appears. Click a folder. A menu appears. Click Select Folder.</td>
<td>All Folders</td>
</tr>
<tr>
<td>Show</td>
<td>Set whether you want to search for sent or received phone call logs.</td>
<td>Sent and Received</td>
</tr>
<tr>
<td>Type</td>
<td>Set the type of message for which you want to search.</td>
<td>All</td>
</tr>
</tbody>
</table>

4. Click the trackwheel. A menu appears.
5. Click Search. The Search Results screen appears.

Setting phone options

View the phone options
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call Logging</td>
<td>Set whether phone call logs appear on the Messages screen. Select the type of calls that are logged.</td>
</tr>

<td>General Options</td>
<td>Set general phone options.</td>
</tr>
</tbody>
</table>
Setting call logging
You can set whether phone call logs appear on the Messages screen.

Set call logging
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click Call Logging. The Call Logging screen appears.
5. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Show Logs In Message List</td>
<td>Set whether phone call logs appear on the Messages screen.</td>
<td>Yes</td>
</tr>
<tr>
<td>Log These Call Types</td>
<td>Set which types of calls generate a phone call log.</td>
<td>Selected</td>
</tr>
</tbody>
</table>

6. Click the trackwheel. A menu appears.
7. Click Save. The options are saved.
Setting call barring

Prerequisite: To block calls, the following requirements must be met:
- Your SIM card must be provisioned for call barring.
- You must have a default call barring password.

Contact your service provider for more information.

Set call barring options
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click Call Barring. The Call Barring screen appears.
5. In the following check boxes, press the Space key to select or clear the option:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Incoming</td>
<td>Set whether all incoming calls are blocked.</td>
<td>cleared</td>
</tr>
<tr>
<td>Incoming If Roaming</td>
<td>Set whether incoming calls are blocked when you are roaming outside the coverage area of your home network.</td>
<td>cleared</td>
</tr>
<tr>
<td>All Outgoing</td>
<td>Set whether all outgoing calls are blocked.</td>
<td>cleared</td>
</tr>
<tr>
<td>Int’l Calls</td>
<td>Set whether outgoing calls to international phone numbers are blocked.</td>
<td>cleared</td>
</tr>
<tr>
<td>Int’l Not to Home PLMN</td>
<td>Set whether outgoing calls to international phone numbers that are not on your home network are blocked.</td>
<td>cleared</td>
</tr>
</tbody>
</table>

6. Click the trackwheel. A menu appears.
7. Click Save. The options are saved.

Enable or disable call barring
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click **Options**. The Phone Options screen appears.
4. Click **Call Barring**. The Call Barring screen appears.
5. Click the trackwheel. A menu appears.
6. Select one of the following options:
   - To enable call barring, click **Enable**. A dialog box appears. In the **Enter password** field, type your password.
   - To disable call barring, click **Disable**.
7. Click the trackwheel. A menu appears.
8. Click **Save**. The option is enabled or disabled.

### Change your call barring password
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click **Options**. The Phone Options screen appears.
4. Click **Call Barring**. The Call Barring screen appears.
5. Click the trackwheel. A menu appears.
6. Click **Change Password**. A dialog box appears.
7. In the **Current Password** field, type your call barring password.
8. Click the trackwheel. A dialog box appears.
9. In the **New Password** field, type a new call barring password.
10. Click the trackwheel. A dialog box appears.
11. In the **Verify New Password** field, type the new password again.
12. Click the trackwheel. Your password is changed.
Setting phone options

Setting call forwarding

**Prerequisite:** To set and enable call forwarding profiles, your SIM card must be provisioned for call forwarding. Contact your service provider for more information.

**Set call forwarding profiles**

1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click Call Forwarding. The profiles appear.

<table>
<thead>
<tr>
<th>Profile</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Calls</td>
<td>This profile forwards all calls to the specified phone number.</td>
</tr>
<tr>
<td>Unanswered Calls</td>
<td>This profile forwards calls to the specified number if you are on another call, you are not answering calls, or your handheld is not reachable.</td>
</tr>
</tbody>
</table>

5. Click a profile. A menu appears.
6. Click Edit. The Edit Forwarding Profile screen appears.
7. Type a phone number.
8. Click the trackwheel. A menu appears.
9. Click Save. The profile is saved.

**Enable or disable a call forwarding profile**

1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click Call Forwarding. The Call Forwarding screen appears.
5. Click a profile. A menu appears.
6. Select one of the following options:
3: Phone

- To enable the call forwarding profile, click Enable.
- To disable the call forwarding profile, click Disable.

**Tip:** To enable or disable a call forwarding profile quickly, select it and press the Space key.

### Setting call waiting

**Set call waiting**

1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click Call Waiting. The Call Waiting screen appears.
5. In the following field, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call Waiting</td>
<td>Set whether you receive notification for incoming calls during a call.</td>
<td>Yes</td>
</tr>
</tbody>
</table>

6. Click the trackwheel. A menu appears.
7. Click Save. The option is saved.

### Setting general phone options

**Set general phone options**

1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click General Options. The General Options screen appears.
### Setting phone options

5. In the following fields, press the **Space** key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Option</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Auto Answer</strong></td>
<td>Set whether calls are answered automatically when you remove your handheld from the holster.</td>
<td><strong>Never</strong></td>
</tr>
<tr>
<td><strong>Auto Hangup</strong></td>
<td>Set whether phone calls end when you insert your handheld in the holster.</td>
<td><strong>Into Holster</strong></td>
</tr>
<tr>
<td><strong>Confirm Delete</strong></td>
<td>Set whether you are prompted before phone numbers and contacts are deleted from the Phone screen.</td>
<td><strong>Yes</strong></td>
</tr>
<tr>
<td><strong>Restrict My Identity</strong></td>
<td>Set whether your handheld phone number is hidden from the recipient's call display when you make phone calls.</td>
<td><strong>No</strong></td>
</tr>
<tr>
<td><strong>Sort By</strong></td>
<td>Set how your contacts appear on the Phone screen.</td>
<td><strong>Most Recent</strong></td>
</tr>
<tr>
<td><strong>Dial from Home Screen</strong></td>
<td>Set whether you can dial phone numbers from the Home screen. If you set this field to <strong>Yes</strong>, you cannot use shortcut keys on the Home screen.</td>
<td><strong>No</strong></td>
</tr>
</tbody>
</table>

6. Click the trackwheel. A menu appears.

7. Click **Save**. The options are saved.

### Setting smart dialing options

You can specify default country and area codes so that you do not have to specify these numbers each time that you type a phone number.

You can also set options for dialing corporate extensions. If you call a corporation frequently, you can set your smart dialing options so that you do not have to type the main number for the corporation. To call a contact in the corporation, you only need to type **x** and the extension number.

**Set general smart dialing options**

1. Open the phone. The Phone screen appears.
3. Phone

2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click Smart Dialing. The Smart Dialing screen appears.
5. In the following fields, type general smart dialing information:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Country Code</td>
<td>Type your country code.</td>
</tr>
<tr>
<td>Area Code</td>
<td>Type your area code.</td>
</tr>
<tr>
<td>National Number Length</td>
<td>Type the default length for phone numbers in your country. This value includes your area code and local number, but does not include your country code or National Direct Dialing prefix.</td>
</tr>
</tbody>
</table>

Set corporate smart dialing options
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click Smart Dialing. The Smart Dialing screen appears.
5. In the following field, type corporate smart dialing information:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call</td>
<td>Type the main phone number of a corporation that you call frequently. If you have set general smart dialing options, you do not need to specify an area or country code.</td>
</tr>
</tbody>
</table>

6. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wait For</td>
<td>Set how long your handheld waits before dialing extensions. This option applies to extensions of the phone number that you specified in the Call field.</td>
<td>2 seconds</td>
</tr>
<tr>
<td>Extension Length</td>
<td>Set a default length for extensions of the phone number that you specified in the Call field.</td>
<td>Unknown</td>
</tr>
</tbody>
</table>
Setting phone options

7. In the following field, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wait For</td>
<td>Set how long your handheld waits before dialing extensions. This option applies to extensions of phone numbers other than the one you specified in the Call field.</td>
<td>2 seconds</td>
</tr>
</tbody>
</table>

8. Click the trackwheel. A menu appears.
9. Click Save. The options are saved.

Setting voice mail options

If your SIM card is provisioned for voice mail, a voice mail access number appears on the Voice Mail screen. If your SIM card is not provisioned for voice mail or you want to choose a different voice mail system, you can specify a voice mail access number.

Set voice mail options

1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click Voice Mail. The Voice Mail screen appears.
5. In the following fields, type voice mail information:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Access Number</td>
<td>Type a voice mail access number.</td>
</tr>
<tr>
<td>Additional Numbers</td>
<td>Type any additional numbers for your voice mail (for example, a password or an extension number).</td>
</tr>
</tbody>
</table>

6. Click the trackwheel. A menu appears.
7. Click Save. The options are saved.
Setting TTY options

You can use text telephone (TTY) to make calls to and receive calls from other TTY devices. If you connect your handheld to a TTY device, phone calls that you receive on your handheld are converted to text.

Prerequisite: To use text telephone, the following requirements must be met:

- Your service provider must support TTY devices.
- Your TTY device must operate at 45.45 bps. The handheld does not support devices that operate at 50 bps.
- The TTY device connector must be inserted into the headset jack that is located at the top of your handheld. If you use an RJ-11 connector, you must use an adapter to connect the TTY device to your handheld.

Set the TTY option

1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Phone Options screen appears.
4. Click TTY Option. The TTY Option screen appears.
5. In the following field, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>TTY Mode</td>
<td>Set whether the TTY feature is enabled or disabled.</td>
<td>No</td>
</tr>
</tbody>
</table>

6. Click the trackwheel. A menu appears.
7. Click Save. The option is saved.

Viewing phone information

The Phone Info screen displays the duration of your calls and your handheld phone number.
Viewing phone information

**View phone information**
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click **Status**. The Phone Info screen displays your handheld phone number, the length of your last call, and the total length of all your calls.

**Reset call timers**
1. Open the phone. The Phone screen appears.
2. Click the trackwheel. A menu appears.
3. Click **Status**. The Phone Info screen appears.
4. Click either **Last Call** or **Total Calls**. A menu appears.
5. Select one of the following options:
   - To clear the timer, click **Clear Timer**.
   - To clear both timers, click **Clear All Timers**.
6. Click the trackwheel. A menu appears.
7. Click **Save**. The timer is reset.
3: Phone
Browser

Depending on your service provider’s plan, a browser or some browser features might not be available on your handheld. Contact your service provider for more information on available services.

This section provides information on the following topics:

- About the handheld browsers
- Configuring a browser
- Browsing web pages
- Using bookmarks
- Managing the browser
- Setting browser options
About the handheld browsers

Your handheld supports two browser types—one which allows you to open web pages using your service provider’s gateway and one which allows you to open web pages using your corporate Mobile Data Service. The options and available services vary depending on your service provider.

Prerequisite: To browse web pages using your corporate Mobile Data Service, the following requirement must be met:

- Your handheld must be enabled for Mobile Data Service on a BlackBerry Enterprise Server version 3.5 or later for Microsoft Exchange or a BlackBerry Enterprise Server version 2.2 or later for Lotus Domino.

Configuring a browser

Configure a browser

You can change the home page for a browser.

1. Open a browser. The startup screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The Browser Options screen appears.
4. Click Browser Configuration. The Browser Configuration screen appears.
5. In the Home Page Address field, type a URL.
6. In the following fields, press the Space key until the preferred option appears.

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Show Images</td>
<td>Set whether images load when you open a web page.</td>
<td>On WML &amp; HTML Pages</td>
</tr>
<tr>
<td>Show Image Placeholders</td>
<td>Set whether image placeholders appear if images do not load.</td>
<td>No</td>
</tr>
</tbody>
</table>
Browsing web pages

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Content Mode</td>
<td>Set the type of content that your browser accepts.</td>
<td>WML &amp; HTML</td>
</tr>
</tbody>
</table>

⚠️ **Warning:** Do not change the information in any other fields on this screen.

7. Click the trackwheel. A menu appears.
8. Click **Save Options**. The configuration is saved.

**Browsing web pages**

The browser is optimized to view WML and HTML web pages.

**Prerequisite:** To browse web pages, the following requirements must be met:

- The wireless coverage indicator must show a level of wireless coverage.
- **GPRS** must appear with the wireless coverage indicator on the Home screen.

**Open a web page by typing a URL**

1. Open a browser. The startup screen appears.
2. Click the trackwheel. A menu appears.
3. Click **Go To**. A dialog box appears.
4. In the **Go To** field, type a URL.
4: Browser

Go To field — Typing a URL

Tip: Press the Space key to insert a period. Press a Shift key + the Space key to insert a slash mark (/).

5. Click OK. The browser requests the web page.

Open a web page from a link

Links to web pages appear as underlined text and usually contain the name or URL of a web page.

1. Click a link. A menu appears.
2. Click Get Link. The browser requests the web page.

Tip: To open a web page from a link quickly, select the link and hold the trackwheel.

Cancel a web page request

1. While a web page is loading, click the trackwheel. A menu appears.
2. Click Stop. The browser stops requesting the web page.
Browsing web pages

Navigate on a web page
Navigation on a web page varies according to the layout on each page and the items that you have selected. A web page can contain customized menu items or links.

1. On a web page, select one of the following options:
   - To select a menu item, click the trackwheel. A menu appears. Click a menu item.
   - To select a link on a web page, click the link.

Tip: To see a list of browser shortcut keys, click the trackwheel. A menu appears. Click Help.

Navigate between web pages
1. On a web page, click the trackwheel. A menu appears.
2. Select one of the following options:
   - To move back a page, click Previous or press the Escape button.
   - To move forward a page, click Next.

View images on a web page
1. On a web page, click an image or image placeholder. A menu appears.
2. Select one of the following options:
   - To view the image on its own page, click Full Image.
   - To load more images on the web page, click More Images.
   - To load all the images on the web page, click All Images.
4: Browser

Refresh a web page
You can refresh a web page to view the most current information, or if a web page stops responding.

1. On a web page, click the trackwheel. A menu appears.
2. Click Refresh. The web page is refreshed.

Save a web page to the Messages screen
You can save a web page to your Messages screen instead of creating a bookmark that appears on the Bookmarks screen.

1. On a web page, click the trackwheel. A menu appears.
2. Select one of the following options:
   • If the web page is not loaded yet, click Save Request.
   • If the web page is loaded, click Save Page.

   The requested web page is saved as a message on the Messages screen.

Tip: To open a web page from the Messages screen, click a saved web page. A menu appears. Click Open Page.

View the URL of a web page
You can view the URL of a web page while you browse it.

1. On a web page, click the trackwheel. A menu appears.
2. Click Page Address. The Address dialog box displays the address of the web page.
Browsing web pages

View the security settings for a web page

1. On a web page, click one of the following icons:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Icon" /></td>
<td>browser connection to the web page is secure</td>
</tr>
<tr>
<td><img src="image" alt="Icon" /></td>
<td>browser connection to the web page is not secure</td>
</tr>
</tbody>
</table>

A dialog box displays security setting information.

Download applications

You can download applications to use on your handheld.

**Note:** You are solely responsible for the selection, implementation and performance of any third-party applications that you use with the handheld or desktop software. Research In Motion does not in any way endorse or guarantee the security, compatibility, performance, or trustworthiness of any third-party applications, and shall have no liability to you or any third-party for issues arising from such third-party applications.

1. On a web page, click an application link. A menu appears.
2. Click **Get Link**. The application information appears.

![Application information](image)

3. Click **Download**. A dialog box appears.
4: Browser

4. Click OK. The application is downloaded. The new application is added to your handheld.

Using bookmarks

You can save the addresses of your favorite web pages as bookmarks. Bookmarks appear in the browser, on the Bookmarks screen.

Create a bookmark

1. On a web page, click the trackwheel. A menu appears.
2. Click Add Bookmark. The Add Bookmark dialog box appears.

3. In the following fields, review or edit the information:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Title</td>
<td>This field displays the name of the bookmark.</td>
<td></td>
</tr>
</tbody>

<td>cleared</td>
</tr>
<tr>
<td></td>
<td>▶ To select or clear the check box, press the Space key.</td>
<td></td>
</tr>
</tbody>
</table>

4. Click Add. The bookmark is saved.

Open a bookmark

1. In a browser, click the trackwheel. A menu appears.
2. Click Bookmarks. The Bookmarks screen appears.
3. Click a bookmark. A menu appears.
4. Click Get Link. The browser requests the web page.

Edit a bookmark

1. In a browser, click the trackwheel. A menu appears.
2. Click Bookmarks. The Bookmarks screen appears.
3. Click a bookmark. A menu appears.
4. Click Edit Bookmark. A dialog box appears.
5. Edit the bookmark.
6. Click Accept. The edited bookmark is saved.

**Move a bookmark**

1. In a browser, click the trackwheel. A menu appears.
2. Click Bookmarks. The Bookmarks screen appears.
3. Click a bookmark. A menu appears.
4. Select one of the following options:
   - To move the bookmark one item higher in the list, click **Move Bookmark Up**.
   - To move the bookmark one item lower in the list, click **Move Bookmark Down**.
   - To move the bookmark to another folder, click **Move Bookmark**. The Select Destination Folder screen appears. Click a folder. A menu appears. Click **Select Folder**.

**Note:** To change the *Make Available Offline* option, you must create the bookmark again. Refer to "Create a bookmark" on page 78 for more information.
Delete a bookmark
1. In a browser, click the trackwheel. A menu appears.
2. Click Bookmarks. The Bookmarks screen appears.
3. Click a bookmark. A menu appears.
4. Click Delete Bookmark. A dialog box appears.
5. Click Delete. The bookmark is deleted.

Note: You cannot delete the Home Page bookmark.

Create a folder for bookmarks
You can create folders within the Bookmarks folder.
1. In a browser, click the trackwheel. A menu appears.
2. Click Bookmarks. The Bookmarks screen appears.
3. Click the trackwheel. A menu appears.
4. Click View Bookmark Subfolders. The Bookmarks screen appears.
5. Click the trackwheel. A menu appears.
6. Click Add Subfolder. A dialog box appears.
4: Browser

7. In the Enter subfolder name field, type a name for the folder.
8. Click OK. The folder is saved.

**Rename a folder for bookmarks**
1. In a browser, click the trackwheel. A menu appears.
2. Click Bookmarks. The Bookmarks screen appears.
3. Click the trackwheel. A menu appears.
4. Click View Bookmark Subfolders. The Bookmarks screen appears.
5. Click a folder. A menu appears.
6. Click Rename Folder. A dialog box appears.
7. In the Enter subfolder name field, type a new name for the folder.
8. Click OK. The renamed folder is saved.

**Move between folders for bookmarks**
Folders that contain other folders are marked with a plus sign (+).
Managing the browser

1. On the Bookmarks screen, select one of the following options:
   - To select a folder, click the trackwheel. A menu appears. Click Select Folder.
   - To open a folder, click the trackwheel. A menu appears. Click Open Folder.
   - To move up a folder level, click the trackwheel. A menu appears. Click Move Up.
   - To move to the Bookmarks folder, click the trackwheel. A menu appears. Click Go to Root.

Close a web page
1. In a browser, press the Escape button. The previous screen appears.

Hide the browser
You can hide the browser while you use other applications on your handheld.
1. In a browser, click the trackwheel. A menu appears.
2. Click Hide. The previous screen appears.
3. To return to the browser, click a browser. The last web page that you viewed appears.

Close the browser
Closing the browser disconnects it from the wireless network.
1. In a browser, click the trackwheel. A menu appears.
2. Click Close.

Tip: To close the browser quickly, press and hold the Escape button.

**View the browser history**

The browser saves a list of the last 20 web pages that you visited during your browser session.

1. On a web page, click the trackwheel. A menu appears.
2. Click History. The History screen appears.

**Clear a browser cache**

You can clear the browser caches to free memory on your handheld. Each cache can store up to ten items.

1. In the browser, click the trackwheel. A menu appears.
2. Click Options. The Browser Options screen appears.
3. Click General Properties. The General Properties screen appears.
4. Click the trackwheel. A menu appears.
5. Select one of the following options:
   - To clear rendered pages, click Clear Page Cache.
   - To clear server data, click Clear Raw Data Cache.
   - To clear rendered pages and server data, click Clear Content Caches.
   - To clear browser cookies, click Clear Cookie Cache.
   - To clear content that was sent to your handheld, click Clear Persistent Cache.
View the browser connection information

You can view the host name of a web page, the duration of your browser session, and the amount of data sent and received by your browser.

1. On a web page, click one of the following icons:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>![Icon_A]</td>
<td>browser is connected to the wireless network</td>
</tr>
<tr>

Managing appointments and meetings
An appointment is a scheduled amount of time in the calendar. A meeting is an appointment to which contacts are invited.

Prerequisite: To manage meetings on your handheld, the following requirements must be met:

- Your handheld must be integrated with an enterprise email account.
- Your handheld must be enabled on a BlackBerry Enterprise Server version 2.1 or later.
- Wireless calendar synchronization is enabled. Refer to the Desktop Software: Intellisync Help for more information.
Managing appointments and meetings

Create an appointment or meeting

1. Open the calendar. The calendar appears.
2. Click the trackwheel. A menu appears.

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Subject</td>
<td>Type the subject of the appointment.</td>
</tr>
<tr>
<td>Location</td>
<td>Type the location of the appointment.</td>
</tr>
</tbody>
</table>

4. In the following fields, type the appointment information:

5. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Day Event</td>
<td>Set whether the appointment occupies a full day.</td>
<td>cleared</td>
</tr>
<tr>
<td>Start</td>
<td>Set the date and time when the appointment starts.</td>
<td>selected date and time</td>
</tr>
</tbody>
</table>
5: Calendar

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>End</td>
<td>Set the date and time when the appointment ends. If you modify this field, the Duration field reflects the change.</td>
<td>1 hour after start time</td>
</tr>
<tr>
<td></td>
<td><strong>Lotus Notes:</strong> Lotus Notes users cannot create appointments that span days. The appointment must start and end on the same date.</td>
<td></td>
</tr>
<tr>
<td>Duration</td>
<td>Set the length of the appointment. If you modify this field, the <strong>End</strong> field reflects the change.</td>
<td>0 Hours</td>
</tr>
<tr>
<td>Time Zone</td>
<td>Set the time zone in which the appointment occurs.</td>
<td><strong>Selected Time Zone</strong></td>
</tr>
<tr>
<td>Reminder</td>
<td>Set the amount of time in advance your handheld notifies you of the appointment. If you do not want to be notified, set this field to <strong>None</strong>.</td>
<td>15 Min.</td>
</tr>
<tr>
<td>Recurrence</td>
<td>Set whether you want the appointment to recur regularly, such as on a daily, weekly, or monthly basis. <strong>Every:</strong> Set the frequency of the appointment. <strong>End:</strong> Set the date on which the series of appointments ends. <strong>Days:</strong> If your appointment recurs weekly, set the days on which the appointment recurs. <strong>Relative Date:</strong> If your appointment recurs monthly or yearly, you can set whether the appointment recurs on the exact date or on the relative date. For example, you can set the appointment to recur on the 28th of each month (exact date) or on the last Monday of each month (relative date).</td>
<td><strong>None</strong></td>
</tr>
</tbody>
</table>

6. In the **Notes** field, type any additional information for the appointment.

7. Click the trackwheel. A menu appears.

8. Select one of the following options:

   - To save the appointment, click **Save**.
Managing appointments and meetings

- To create a meeting, proceed to step 9.

9. Click **Invite Attendee**. The Select Address screen appears.

10. Click a contact. A menu appears.

11. Click **Invite**.

12. To invite more contacts, repeat steps 9 through 11.

   **Tip:** Do not invite yourself to the meeting. You are already registered as the person who created the meeting.

13. Click the trackwheel. A menu appears.

14. Click **Save**. A meeting invitation is sent.

   **Note:** Any responses to your meeting invitation are received in the messages application.

   **Warning:** If you turn off the handheld by clicking the **Turn Power Off** icon, the handheld does not turn on to notify you of calendar reminders. To have the handheld turn on to notify you of a calendar reminder, select one of the following options:
   - Turn off the handheld by pressing the **Power** button.
   - Set the Auto On/Off feature. Refer to "Set Auto On/Off options" on page 110 for more information.

Create an appointment quickly

   **Prerequisite:** To add appointments quickly, the **Enable Quick Entry** field must be set to **Yes**. Refer to "Set calendar options" on page 97 for more information.

1. Open the calendar. The calendar appears.

2. Verify that the calendar is in Day format.

   **Tip:** If the calendar is not in Day format, click the trackwheel. A menu appears. Click **View Day**. Day format appears.

3. Beside the start time, type the subject of the appointment.

4. Beside the subject, type a location in parentheses.

5. Roll the trackwheel to change the end time of the appointment.
5: Calendar

6. Click the trackwheel. The appointment is saved.

**Open an appointment or meeting**

1. Open the calendar. The calendar appears.

2. Verify that the calendar is in Day, Week, or Agenda format.

   **Tip:** If the calendar is in Month format, click a day. A menu appears. Click View Appts. Day format appears.

3. Click an appointment or meeting. A menu appears.

4. Click **Open**. If the appointment or meeting recurs, a dialog box appears.
   
   - To open all occurrences of the appointment, click **Open the series**.
   
   - To open only the selected appointment, click **Open this occurrence**.

   The details of the meeting appear.

**Open a meeting from the Messages screen**

1. On the Messages screen, click a meeting invitation (or response). A menu appears.

2. Click **Open**. The meeting invitation (or response) appears.

3. At the bottom of the screen, click Meeting Request (or Meeting Response). A menu appears.

4. Click **Open Attachment**. The details of the meeting appear.

**Accept or decline a meeting invitation**

Meeting invitations appear as messages on the Messages screen.

1. Open the messages application. The Messages screen appears.

2. Click the meeting invitation. A menu appears.
Managing appointments and meetings

3. Click **Open**. The details of the meeting appear.

   **Tip:** To check your calendar while you view the meeting invitation, click the trackwheel. A menu appears. Click **View Calendar**.

4. Click the trackwheel. A menu appears.

5. Select one of the following options:
   - To accept the meeting without sending comments, click **Accept**.
   - To decline the meeting without sending comments, click **Decline**.
   - To accept the meeting and send comments, click **Accept with comments**. The Comments screen appears. Type comments. Click the trackwheel. A menu appears. Click **Send**.
   - To decline the meeting and send comments, click **Decline with comments**. The Comments screen appears. Type comments. Click the trackwheel. A menu appears. Click **Send**.

   The response is sent to the person who created the meeting.

Edit an appointment or meeting

**Note:** You can only edit a meeting that you created.

1. Open the calendar. The calendar appears.

2. Verify that the calendar is in Day, Week, or Agenda format.

   **Tip:** If the calendar is in Month format, click a day. A menu appears. Click **View Appts**. Day format appears.

3. Click an appointment or meeting. A menu appears.

4. Click **Open**. If the appointment or meeting recurs, a dialog box appears.
5: Calendar

- To edit all occurrences of the appointment or meeting, click **Open the series**.
- To edit only the selected appointment or meeting, click **Open this occurrence**.

The Appointment Details screen appears.

5. Edit the appointment or meeting.

- To save the edited appointment or meeting, click **Save**.
- To edit the contacts that are invited to a meeting, proceed to step 8.

6. Click the trackwheel. A menu appears.

7. Select one of the following options:
   - To save the edited appointment or meeting, click **Save**.
   - To edit the contacts that are invited to a meeting, proceed to step 8.

8. In either the **Accepted** field or the **Declined** field, click a contact. A menu appears.

9. Select one of the following options:
   - To invite a new contact, click **Invite Attendee**. The Select Address screen appears. Click a contact. A menu appears. Click **Invite <contact>**.
   - To replace one contact with another contact, click **Change Attendee**. The Select Address screen appears. Click a contact. A menu appears. Click **Invite <contact>**.
   - To revoke the invitation to a contact, click **Remove Attendee**. A dialog box appears. Click **Delete**.

10. Click the trackwheel. A menu appears.

11. Click **Save**. An updated meeting invitation is sent.
Delete an appointment or meeting

**Warning:** If you delete a meeting invitation from the Messages screen before you accept or decline it, the appointment is deleted from your desktop calendar.

1. Open the calendar. The calendar appears.
2. Verify that the calendar is in Day, Week, or Agenda format.
3. Click an appointment or meeting. A menu appears.
4. Click **Delete**. A dialog box appears.
5. Select one of the following options:
   - If the appointment or meeting occurs once, click **Delete**.
   - If the appointment or meeting recurs, to delete all occurrences of the appointment, click **Delete the series**. To delete only the selected appointment, click **Delete this occurrence**.

The appointment or meeting is deleted.

**Tip:** If you delete a meeting that you created, the Send cancellation to attendees dialog box appears. To send a cancellation notice to the contacts that you invited, click **Yes**.

Setting calendar options

**Set calendar options**

1. Open the calendar. The calendar appears.
2. Click the trackwheel. A menu appears.
3. Click **Options**. The Calendar Options screen appears.
4. In the following fields, press the **Space** key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>

</tr>
<tr>
<td>First Day of the Week</td>
<td>Set the day on which your weekly schedule begins.</td>
<td>Mon</td>
</tr>
</tbody>
</table>

5. Click the trackwheel. A menu appears.

6. Click **Save**. The options are saved.
Other applications

This section provides information on the following topics:

- Tasks
- MemoPad
- Calculator
- Alarm
6: Other applications

Tasks

Create a task

You can create a task to track the progress of an assigned duty.

1. Open the tasks application. The Find screen appears.
2. Click the trackwheel. A menu appears.

4. In the Task field, type the subject of the task.
5. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Status</td>
<td>Set the progress status of the task.</td>
<td>Not Started</td>
</tr>
<tr>
<td>Priority</td>
<td>Set the priority of the task.</td>
<td>Normal</td>
</tr>
<tr>
<td>Due</td>
<td>Set the date by which the task is to be completed.</td>
<td>None</td>
</tr>
</tbody>
</table>

6. In the Notes field, type any additional information for the task.
7. Click the trackwheel. A menu appears.
8. Click **Save**. The task is saved.

**Open a task**
1. Open the tasks application. The Find screen appears.
2. Click a task. A menu appears.
3. Click **Open**. The task appears.

**Edit a task**
1. Open the tasks application. The Find screen appears.
2. Click a task. A menu appears.
3. Click **Open**. The Edit Task screen appears.
4. Edit the task.
5. Click the trackwheel. A menu appears.
6. Click **Save**. The edited task is saved.

**Change the status of a task**
1. Open the tasks application. The Find screen appears.
2. Click a task. A menu appears.
3. Select one of the following options:
   - To show that the task is in progress, click **Mark In Progress**.
   - To show that the task is complete, click **Mark Completed**.

**Note:** To mark a task as **Waiting** or **Deferred**, you must edit the **Status** field of the task. Refer to "Edit a task" on page 101 for more information.

**Delete a task**
1. Open the tasks application. The Find screen appears.
2. Click a task. A menu appears.
6: Other applications

3. Click Delete. A dialog box appears.
4. Click Delete. The task is deleted.

**Tip:** To delete all completed tasks, on the Find screen, click the trackwheel. A menu appears. Click **Delete Completed**.

**Set task options**
1. Open the tasks application. The Find screen appears.
2. Click the trackwheel. A menu appears.
3. Click **Options**. The Tasks Options screen appears.
4. In the following fields, press the **Space** key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sort By</td>
<td>Set how tasks are sorted on the Find screen.</td>
<td>Subject</td>
</tr>
<tr>
<td>Confirm Delete</td>
<td>Set whether you are prompted before tasks are deleted.</td>
<td>Yes</td>
</tr>
</tbody>
</table>

5. Click the trackwheel. A menu appears.
6. Click **Save**. The options are saved.

**MemoPad**

**Create a memo**
You can create a memo to record notes or lists.
1. Open the memo application. The Find screen appears.
2. Click the trackwheel. A menu appears.
3. Click **New**. A blank memo appears.
4. In the **Title** field, type a name for the memo.
5. Press the **Enter** key.
6. Type a memo.
7. Click the trackwheel. A menu appears.
8. Click Save. The memo is saved.

**Open a memo**
1. Open the memo application. The Find screen appears.
2. Click a memo. A menu appears.
3. Click View. The memo appears.

**Edit a memo**
1. Open the memo application. The Find screen appears.
2. Click a memo. A menu appears.
3. Click Edit. The memo appears.
4. Edit the memo.
5. Click the trackwheel. A menu appears.
6. Click Save. The edited memo is saved.

**Delete a memo**
1. Open the memo application. The Find screen appears.
2. Click a memo. A menu appears.
3. Click Delete. A dialog box appears.
4. Click Delete. The memo is deleted.

**Set MemoPad options**
1. Open the memo application. The Find screen appears.
2. Click the trackwheel. A menu appears.
3. Click Options. The MemoPad Options screen appears.
4. In the following field, press the **Space** key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>

</tr>
</tbody>
</table>

5. Click the trackwheel. A menu appears.

6. Click **Save**. The option is saved.

**Calculator**

**Perform a calculation**

1. Open the calculator. The calculator appears.
2. Type a number.
3. Click an operator.
4. Type another number.
5. Click the equal sign. The result appears.

**Tip** To use the calculator memory, select one of the following options:
- To populate the memory, type a number. Click **M+**.
- To recall the memory, click **MR**.
- To clear the memory, click **MC**.
- To replace the memory, type a number. Click **MS**.

**Convert measurements**

You can convert numbers to and from metric and imperial measurements.
1. Open the calculator. The calculator appears.
2. Type a number.
3. Click **Menu**. A menu appears.
4. Select one of the following options:
   • To convert from imperial to metric, click To Metric.
   • To convert from metric to imperial, click From Metric.
     A menu appears.
5. Click a conversion. The number is converted.

**Alarm**

**Set the alarm**
1. Open the alarm. The Alarm screen appears.
2. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Option</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Daily Alarm</td>
<td>Set whether the alarm is on or off.</td>
<td>Off</td>
</tr>
</tbody>
</table>
| Time             | Set the time at which you want the alarm to notify you. | 12:00 AM
| Snooze           | Set whether the alarm sounds again after the initial notification. Set the amount of time after each notification that the alarm notifies you again. | Off     |
| Active on Weekends | Set whether the alarm notifies you every day, including Saturday and Sunday. | Yes     |

3. Click the trackwheel. A menu appears.
4. Click Save. The options are saved.

**Warning:** If you turn off the handheld by clicking the Turn Power Off icon, the handheld does not turn on to notify you of the alarm. To have the handheld turn on to notify you of an alarm, select one of the following options:
   • Turn off the handheld by pressing the Power button.
   • Set the Auto On/Off feature. Refer to "Set Auto On/Off options" on page 110 for more information.
6: Other applications

Turn off the alarm

- To silence the alarm when it is sounding, press any key.
- To disable the alarm, set the Daily Alarm field to Off.

Handheld options

About

View handheld information
1. Open the options application. The Options screen appears.
2. Click About. Handheld and copyright information appears.
3. To return to the Options screen, press the Escape button twice.

Applications

Default applications are shipped with your handheld. Any additional applications that you load onto your handheld are called third-party applications.

Note: You are solely responsible for the selection, implementation and performance of any third-party applications that you use with the handheld or desktop software. Research In Motion does not in any way endorse or guarantee the security, compatibility, performance, or trustworthiness of any third-party applications, and shall have no liability to you or any third-party for issues arising from such third-party applications.

View application information
1. Open the options application. The Options screen appears.
2. Click Applications. The Applications screen appears.
3. Click an application. A menu appears.
4. Select one of the following options:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>TLS</td>
<td>Set Transport Layer Security (TLS) options.</td>
</tr>
<tr>
<td>WAP Push</td>
<td>Set how your handheld processes WAP Push messages and applications.</td>
</tr>
<tr>
<td>WTLS</td>
<td>Set Wireless Transport Layer Security (WTLS) options.</td>
</tr>
</tbody>
</table>
7: Options

- To view all application details, click Modules. A list of modules appears. Click a module. A menu appears. Click Module Information. The application details appear.

- To view third-party application details, click Properties. The application details appear.

- To delete a third-party application, click Delete.

Auto On/Off

You can set whether you want your handheld to turn on and off at specific times.

⚠️ Warning: If you are in an area where wireless signals might interfere with normal operations (for example, on an airplane), do not use the Auto On/Off feature to turn off your handheld radio. Click the Turn Wireless Off icon.

Set Auto On/Off options

1. Open the options application. The Options screen appears.
2. Click Auto On/Off. The Auto On/Off screen appears.
3. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Weekday On</td>
<td>Set when the handheld turns on on weekdays.</td>

</tr>
</tbody>
</table>

4. Click the trackwheel. A menu appears.
5. Click Save. The options are saved.
Enable or disable Auto On/Off

1. Open the options application. The Options screen appears.

2. Click Auto On/Off. The Auto On/Off screen appears.

3. In the weekday and weekend sections, select one of the following options:
   • To enable Auto On/Off, in the Disabled field, press the Space key until Enabled appears.
   • To disable Auto On/Off, in the Enabled field, press the Space key until Disabled appears.

   **Note:** If you turn off your handheld using the Power button and Auto On/Off is enabled, the handheld turns on again at the specified Auto On time. Calendar and alarm notifications also turn on your handheld.

   If you turn off your handheld using the Turn Power Off icon, you are prompted to select either Auto Off (the handheld turns on again at the specified Auto On time) or Power Off (the handheld turns on only if you press the Power button).

AutoText

You can use AutoText in messages, tasks, memos, and appointments. The AutoText feature replaces certain text that you type with programmed text. For example, in a message, if you type hte and press the Space key, hte changes to the.

You can use AutoText to complete the following actions:
   • correct commonly misspelled words
   • replace abbreviations and acronyms with complete words
   • insert phrases into messages by typing a keyword

View AutoText entries

1. Open the options application. The Options screen appears.
2. Click AutoText. The AutoText entries appear.

Tip: To search for an AutoText entry, on the AutoText screen, type the first letters of the entry. Entries that begin with these letters appear.

Create an AutoText entry

1. Open the options application. The Options screen appears.
2. Click AutoText. The AutoText screen appears.
3. Click the trackwheel. A menu appears.
5. In the following fields, type AutoText information:

<table>
<thead>
<tr>

<tr>
<td>Auto Time Set</td>
<td>Set whether your handheld time is updated automatically based on your selected time zone.</td>
</tr>
<tr>
<td>Network Date</td>
<td>This field displays the current date on the wireless network.</td>
</tr>
<tr>
<td>Network Time</td>
<td>This field displays the current time on the wireless network.</td>
</tr>
</tbody>
</table>
4. Click the trackwheel. A menu appears.

5. Click **Save**. The options are saved.

**Tip:** To copy the current date and time from the wireless network to your handheld, on the Date/Time screen, click the trackwheel. A menu appears. Click **Copy Network Time**.

### Firewall

If you have third-party applications on your handheld, the firewall option prevents these applications from transmitting data without your knowledge.

**Note:** You are solely responsible for the selection, implementation and performance of any third-party applications that you use with the handheld or desktop software. Research In Motion does not in any way endorse or guarantee the security, compatibility, performance, or trustworthiness of any third-party applications, and shall have no liability to you or any third-party for issues arising from such third-party applications.

#### Accept or deny a connection request

1. In the dialog box that prompts you to accept or deny a connection request, select one of the following options:
   - To accept the request, select the **Accept** check box.
   - To deny the request, select the **Deny** check box.

**Tip:** If you do not want a dialog box to appear each time that a request is made, in the dialog box, select the **Don't ask this again** check box. All subsequent requests are accepted or denied, depending on the option that you selected in the dialog box.

#### Reset firewall settings

You can return to the default firewall settings.

1. Open the options application. The Options screen appears.
2. Click **Firewall**. The Firewall screen appears.
3. Click the trackwheel. A menu appears.
4. Click Reset Settings. The firewall settings are reset.

**Localization**

If more than one language is available on your handheld, you can change the language that is displayed.

**Select a display language**

1. Open the options application. The Options screen appears.
2. Click Localization. The Localization screen appears.
3. In the following field, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Locale</td>
<td>Set the language that you want to use on your handheld.</td>
<td>current display language</td>
</tr>
</tbody>
</table>

4. Click the trackwheel. A menu appears.
5. Click Save. The language is selected.

**Note:** If you change your display language, your AutoText entries are updated to reflect the change.

**Message services**

All email messages that you send from your handheld are sent from the default message service.

**Note:** If your handheld is integrated with a new or existing ISP email account, the default message service is **Web Client**. If your handheld is integrated with an enterprise email account, the default message service is **Desktop**.
Change your default message service

1. Open the options application. The Options screen appears.
2. Click Message Services. The Message Services screen appears.
3. In the Messaging (CMIME) field, press the Space key until the preferred service appears.
4. Click the trackwheel. A menu appears.
5. Click Save. The option is saved.

Network

Set network options

1. Open the options application. The Options screen appears.
2. Click Network. The Network screen appears.
3. In the following fields, press the Space key until the preferred option appears:
   
<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Radio</td>
<td>Turn on and turn off your handheld radio.</td>
<td>On</td>
</tr>
<tr>
<td>Scan Mode</td>
<td>Set whether your handheld scans for and selects a wireless network automatically.</td>
<td>Automatic</td>
</tr>
<tr>
<td>Active Network</td>
<td>This field displays the name of the network that your handheld uses.</td>
<td>—</td>
</tr>
</tbody>
</table>

4. Click the trackwheel. A menu appears.
5. Click Save. The options are saved.

Select a network manually

1. Open the options application. The Options screen appears.
2. Click Network. The Network screen appears.
3. Click the trackwheel. A menu appears.
4. Click **Scan for Networks**. A list of available networks appears.
5. Click a network. A menu appears.
6. Click **Select Network**. The network is selected.

**Register your handheld manually**
1. Open the options application. The Options screen appears.
2. Click **Network**. The Network screen appears.
3. Click the trackwheel. A menu appears.
4. Click **Register Now**. Your handheld is registered.

**Owner**
The text that you type on this screen appears when you lock your handheld.

**Set owner information**
1. Open the options application. The Options screen appears.
2. Click **Owner**. The Owner screen appears.
3. In the following fields, type contact information:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name</td>
<td>Type your name.</td>
</tr>
<tr>
<td>Information</td>
<td>Type information that appears when the handheld is locked.</td>
</tr>
</tbody>
</table>

4. Click the trackwheel. A menu appears.
5. Click **Save**. The owner information is saved.
Profiles

You can enable profiles that notify you of alarms, saved web pages and incoming WAP content, messages, and phone calls.

The handheld has the following profiles. When you first receive your handheld, the Default profile is enabled.

<table>
<thead>
<tr>
<th>Profile</th>
<th>Item</th>

</table>

Enable a notification profile

1. Open the profiles application. The Profiles screen appears.
2. Click a profile. A menu appears.
3. Click Enable. The word (On) appears beside the enabled profile.

Tip: To enable a profile quickly, on the Profiles screen, select a profile. Press the Space key.

Create a notification profile

1. Open the profiles application. The Profiles screen appears.
7: Options

2. Click the trackwheel. A menu appears.

3. Click **New**. A list of items for which you can receive notification appears.

4. In the **Name** field, type a profile name.

5. Click an item for which you can receive notification. A menu appears.

6. Click **Edit**.

7. In the following fields, press the **Space** key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Out of Holster</strong></td>
<td>Set how you are notified when your handheld is not in the holster.</td>
</tr>
<tr>

<tr>
<td><strong>Tune</strong></td>
<td>Set the tune that plays when you are notified.</td>
</tr>
<tr>
<td><strong>Volume</strong></td>
<td>Set the volume for your notification. If you set this field to <strong>Escalating</strong>, the notification volume increases.</td>
</tr>
<tr>
<td><strong>Number of Beeps</strong></td>
<td>Set how many times the tune plays before notification stops. For phone calls, notification does not stop until you answer the call.</td>
</tr>
<tr>
<td><strong>Repeat Notification</strong></td>
<td>Set whether the LED flashes to remind you of unopened messages.</td>
</tr>
<tr>
<td><strong>Do Not Disturb</strong></td>
<td>Set whether your handheld notifies you of incoming calls.</td>
</tr>
</tbody>
</table>

8. Click the trackwheel. A menu appears.

9. Click **Save**. The options are saved.

10. Repeat steps 5 through 9 for the other items in the list.

11. Click the trackwheel. A menu appears.

12. Click **Save**. The profile is saved.
Handheld options

Edit a notification profile
1. Open the profiles application. The Profiles screen appears.
2. Click a profile. A menu appears.
3. Click Edit. A list of items for which you can receive notification appears.
4. Click an item. A menu appears.
5. Click Edit.
6. Edit the notification information.
7. Click the trackwheel. A menu appears.
8. Click Save. The options are saved.
9. Repeat steps 4 through 8 for the other items in the list.
10. Click the trackwheel. A menu appears.
11. Click Close. The edited items are saved.

Delete a notification profile
You can only delete notification profiles that you created.
1. Open the profiles application. The Profiles screen appears.
2. Click a profile. A menu appears.
3. Click Delete. A dialog box appears.
4. Click Delete. The profile is deleted.

Download notification tunes
You can download tunes, or ring tones, in standard MIDI format.
1. On a web page, click a .mid file link. A menu appears.
2. Click Get Link. The MIDI File screen appears.
3. Click Save. A dialog box appears.
7: Options

4. In the Enter Tune Name field, type a name for the tune.
5. Click Save. A dialog box appears.
6. Click OK. The tune is downloaded.

Tip: To listen to the tune before you download it, on the Midi File screen, click the Play icon. To stop playing the tune, click the Stop icon.

Warning: Research In Motion does not in any way endorse or guarantee the security or compatibility of any MIDI file with the handheld, and takes no responsibility whatsoever for such MIDI files, including their functionality. Your selection and usage of MIDI files is your sole responsibility.

Manage a tune
1. Open the profiles application. The Profiles screen appears.
2. Click the trackwheel. A menu appears.
3. Click Show Tunes. The Tunes screen appears.
4. Click a tune. A menu appears.
5. Select one of the following options:
   • To listen to the tune, click Play.
   • To delete a tune, click Delete. A dialog box appears. Click Delete.

Screen/Keyboard

Set screen and keyboard settings
1. Open the options application. The Options screen appears.
2. Click Screen/Keyboard. The Screen/Keyboard screen appears.
3. In the following fields, press the **Space** key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Screen Contrast</td>
<td>Set the contrast of the screen.</td>
<td>50</td>
</tr>
<tr>
<td>Font Family</td>
<td>Set the font family of the display font.</td>
<td>System</td>
</tr>
<tr>
<td>Font Size</td>
<td>Set the size of the display font.</td>
<td>10</td>
</tr>
<tr>
<td>Key Tone</td>
<td>Set whether your handheld emits a tone each time that you press a key.</td>
<td>Off</td>
</tr>
<tr>
<td>Key Rate</td>
<td>Set the speed at which your cursor moves when you hold the <strong>Backspace</strong> key, the <strong>Enter</strong> key, or the <strong>Space</strong> key.</td>
<td>Slow</td>
</tr>
</tbody>
</table>

4. Click the trackwheel. A menu appears.

5. Click **Save**. The options are saved.

### Security

#### Set security options

1. Open the options application. The Options screen appears.

2. Click **Security**. The Security screen appears.

3. In the following fields, press the **Space** key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Password</td>
<td>Set whether you want to enable a password on your handheld. Refer to &quot;Set a password&quot; on page 124 for more information.</td>
<td>Disabled</td>
</tr>
<tr>
<td>Security Timeout</td>
<td>Set the duration of time that your handheld is idle before it locks.</td>
<td>2 Min</td>
</tr>
<tr>
<td>Lock Handheld Upon Holstering</td>
<td>Set whether your handheld locks when you insert it into the holster.</td>
<td>No</td>
</tr>
<tr>
<td>IT Policy</td>
<td>This field displays the name of the IT policy that is assigned to your handheld.</td>
<td>—</td>
</tr>
</tbody>
</table>
7: Options

**Note:** If your handheld is lost or stolen, contact your system administrator. If wireless IT policy is available for your handheld, your system administrator can disable or lock your handheld over the wireless network. To receive IT policy settings over the wireless network, your handheld must be enabled on a BlackBerry Enterprise Server version 3.5 or later for Microsoft Exchange.

4. Click the trackwheel. A menu appears.
5. Click **Save**. The options are saved.

**Set a password**

1. Open the options application. The Options screen appears.
2. Click **Security**. The Security screen appears.
3. In the **Password** field, press the **Space** key until **Enabled** appears.
4. Click the trackwheel. A menu appears.
5. Click **Save**. A dialog box appears.
6. In the **New Password** field, type a password.
7. Click the trackwheel. A dialog box appears.
8. In the **Verify New Password** field, type the password again.
9. Click the trackwheel. The password is enabled.

**Change the password**

1. Open the options application. The Options screen appears.
2. Click **Security**. The Security screen appears.
3. Click the trackwheel. A menu appears.
4. Click **Change Password**. A dialog box appears.
5. In the **Enter Password** field, type the current password.
6. Click the trackwheel. A dialog box appears.
Handheld options

7. In the **New Password** field, type a new password.
8. Click the trackwheel. A dialog box appears.
9. In the **Verify New Password** field, type the password again.
10. Click the trackwheel. The password is changed.

**Disable the password**

1. Open the options application. The Options screen appears.
2. Click **Security**. The Security screen appears.
3. In the **Password** field, press the **Space** key until **Disabled** appears.
4. Click the trackwheel. A menu appears.
5. Click **Save**. A dialog box appears.
6. In the **Enter Password** field, type the password.
7. Click the trackwheel. The password is disabled.

**Lock your handheld**

1. On the Home screen, click the **Lock** icon. Your handheld is locked.

**Unlock your handheld**

- **Warning:** If you type your password five times incorrectly, you are prompted to type `blackberry` before you can continue. On subsequent password attempts, the characters that you type are displayed in the **Enter Password** field.
  - If you type your password eight times incorrectly, you are prompted to type `blackberry` again before you can continue.
  - If you type your password ten times incorrectly, all information is erased from your handheld for security reasons.

1. On the Lock screen, roll the trackwheel. The Handheld is locked dialog box appears.
2. Click **Unlock**. A dialog box appears.
3. In the **Enter Password** field, type your password.
4. Click the trackwheel. Your handheld is unlocked.

**Perform Security Self Tests**

The Security Self Test application verifies that security software is implemented properly on your handheld. The tests run automatically when your handheld restarts. To perform the tests manually, complete the following steps:

1. Open the options application. The Options screen appears.
2. Click **Security**. The Security screen appears.
3. Click the trackwheel. A menu appears.
4. Click **Verify Security Software**. A dialog box indicates whether the tests passed or failed.

**Service book**

You can view the service books that are present on your handheld. Some handheld features (for example, wireless calendar synchronization) require a service book to function.

**Note:** Your integration option determines which email service book appears on your handheld.

**View service books**

1. Open the options application. The Options screen appears.
2. Click **Service Book**. The service books appear.

**Tip:** To view the service record for a service book, click the service book. A menu appears. Click **View**.
**Handheld options**

**Accept a service book**

Your handheld accepts most service books automatically. If a service book is not accepted automatically, a book icon appears in the handheld status section of the screen. To accept a service book manually, complete the following steps:

1. Open the options application. The Options screen appears.
2. Click **Service Book**. The service books appear.
4. Click **Accept**. The service book is accepted.

**SIM card**

Your Subscriber Information Module (SIM) card stores security data, information about your service plan, and personal phone settings. The **ID** field is set by your service provider.

**Enable or disable SIM card security**

Prerequisite: To use SIM card security, the following requirements must be met:

- Your service provider must provide you with a SIM card PIN code.
- Your SIM card must be provisioned appropriately.

1. Open the options application. The Options screen appears.
2. Click **SIM Card**. The SIM Card screen appears.
3. Click the trackwheel. A menu appears.
4. Select one of the following options:
   - To enable SIM card security, click **Enable Security**.
   - To disable SIM card security, click **Disable Security**.
   A dialog box appears.
5. In the Enter PIN code field, type your PIN code.
6. Click the trackwheel. The option is saved.

**Warning:** If you type a PIN code incorrectly three times, your SIM card does not function. To use your handheld with that SIM card again, you must ask your service provider for the personal unblock key (PUK) for your SIM card.

### Change the SIM card PIN code

1. Open the options application. The Options screen appears.
2. Click SIM Card. The SIM Card screen appears.
3. Verify that Security Enabled appears at the top of the screen.
4. Click the trackwheel. A menu appears.
5. Click Change PIN Code. A dialog box appears.
6. In the Enter PIN code field, type your PIN code.
7. Click the trackwheel. A dialog box appears.
8. In the Enter new PIN code field, type your new PIN code.
9. Click the trackwheel. A dialog box appears.
10. Type your new PIN code again. The PIN code is changed.

### SMS

Refer to "Setting SMS message options" on page 27 for more information on SMS options.

### Status

#### View status items

1. Open the options application. The Options screen appears.
2. Click **Status**. The following items appear:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Signal</td>
<td>displays the strength of the network signal, in decibel milliwatts (dBm)</td>
</tr>
<tr>
<td>Battery</td>
<td>displays the approximate level of battery power</td>
</tr>
<tr>
<td>File Free</td>
<td>displays the amount of available memory, in bytes, for storing data such as messages, phone call logs, and contacts</td>
</tr>
<tr>
<td>File Total</td>
<td>displays the amount of memory, in bytes, that the handheld is using</td>
</tr>
<tr>
<td>PIN</td>
<td>displays the personal identification number (PIN) for your handheld</td>
</tr>
<tr>
<td>IMEI</td>
<td>displays the International Mobile Equipment Identity (IMEI) number for your handheld</td>
</tr>
</tbody>
</table>

**TLS**

Transport Layer Security (TLS) provides additional authentication and security when you browse web pages using the BlackBerry Browser. It is an optional security feature that you can load onto your handheld using the Application Loader tool. Refer to the *Desktop Software: Application Loader Help* for more information on loading applications.

⚠️ **Prerequisite:** To use TLS your handheld must be enabled for Mobile Data Service on the BlackBerry Enterprise Server.

**Set TLS options**

1. Open the options application. The Options screen appears.
2. Click **TLS**.
3. In the **TLS Default** field, press the **Space** key until the preferred option appears:
   - To add TLS to the connection from your BlackBerry Enterprise Server to a web server, select **Proxy**.
7: Options

- To add TLS to the entire connection from your handheld to a web server, select **Handheld**.

  **Note:** Your browser might take more time to connect to web pages if you select **Handheld** in the **TLS Default** field.

**WAP Push**

WAP push enables you to receive content from web applications without requesting it. For example, you can receive updates, or notifications, for weather, stock quotes, or news.

Depending on your service provider’s plan, this feature might not be available for your handheld.

**Set WAP Push options**

1. Open the options application. The Options screen appears.

2. In the following check boxes, press the **Space** key to select or clear the option:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enable WAP Push</td>
<td>Set whether WAP push is enabled or disabled.</td>
<td>Selected</td>
</tr>
<tr>
<td>Allow WAP Push Applications</td>
<td>Set whether your handheld accepts third-party applications.</td>
<td>Selected</td>
</tr>
</tbody>
</table>

3. In the following fields, press the **Space** key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Process Service Load</td>
<td>Set how your handheld notifies you of incoming service load content.</td>
<td>Auto</td>
</tr>
<tr>
<td>Process Service Indication</td>
<td>Set how your handheld notifies you of incoming service indication content.</td>
<td>Auto</td>
</tr>
<tr>
<td>Process Other Messages</td>
<td>Set how your handheld notifies you of incoming content that is neither service load or service indication content.</td>
<td>Auto</td>
</tr>
</tbody>
</table>
4. Click the trackwheel. A menu appears.
5. Click Save. The options are saved.

**WTLS**

Wireless Transport Layer Security (WTLS) is the security layer of the WAP Browser that provides security for WAP services. It is an optional security feature that you can load onto your handheld using the Application Loader tool. Refer to the Desktop Software: Application Loader Help for more information on loading applications.

**Set WTLS options**

1. Open the options application. The Options screen appears.
2. Click WTLS. The WTLS screen appears.
3. In the following fields, press the Space key until the preferred option appears:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
<th>Default</th>
</tr>
</thead>
<tbody>
<tr>
<td>Encryption Strength</td>
<td>Set the encryption level for connecting to your WAP gateway.</td>
<td>Allow Weak</td>
</tr>
<tr>
<td>Prompt for Server Trust</td>
<td>Set whether you are prompted to authenticate WTLS connections if the handheld cannot authenticate the connection automatically.</td>
<td>Yes</td>
</tr>
</tbody>
</table>

4. Click the trackwheel. A menu appears.
5. Click Save. The options are saved.

### Issue | Possible cause | Possible solution
--- | --- | ---
The handheld does not respond or is "frozen". | Various. | Reset the handheld. Press the `Alt` key + the `Right Shift` key + the `Backspace` key.
The display is difficult to read. | The handheld is in a poorly lit area. | Turn on the backlighting: Press the `Power` button.
The display font is too small. | Increase the size of the display font. Refer to page 122.
The handheld does not notify you of events such as messages, phone calls, or the alarm. | The wireless radio is off. | Click the Turn Wireless On icon.
The notification is not set to notify you audibly. | Change the notification to `Tone` or `Vibrate+Tone`. Refer to page 119.
The notification volume is too low. | Increase the notification volume. Refer to page 119.
The alarm is set at the wrong time. | Reset the alarm and, if you are using 12 hour format, verify the AM or PM setting. Refer to page 105.
The calendar event does not have a reminder set. | Set a reminder. Refer to page 91.
Troubleshooting

<table>
<thead>
<tr>
<th>Issue</th>
<th>Possible cause</th>
<th>Possible solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Some handheld applications do not work. For example, the handheld does not send or receive messages, the phone does not work or the browser icon does not appear on the home screen.</td>
<td>The wireless radio is off. Click the Turn Wireless On icon.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The handheld is not in an area of wireless coverage</td>
<td>Return to an area of wireless coverage.</td>
</tr>
<tr>
<td></td>
<td>The battery is too low.</td>
<td>Charge the handheld. Refer to the Getting Started and Quick Reference Card.</td>
</tr>
<tr>
<td></td>
<td>The SIM card is not inserted correctly.</td>
<td>Reinsert the SIM card. Refer to the Getting Started and Quick Reference Card.</td>
</tr>
<tr>
<td></td>
<td>The handheld is not registered with the wireless network.</td>
<td>Verify the registration status in the Active Network field.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Refer to page 117.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Register with the network. Refer to page 118.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Contact your service provider.</td>
</tr>
<tr>
<td></td>
<td>The wireless network is experiencing difficulties.</td>
<td>Contact your service provider.</td>
</tr>
<tr>
<td></td>
<td>Your service provider does not support the phone or browser.</td>
<td>Contact your service provider.</td>
