

MOTORAZR™ VE20

Getting Started Guide

congratulations!

Congratulations on your purchase of the MOTORAZR™ VE20 CDMA wireless phone! Its sleek, stylish design is sure to get you noticed.

- **Rich Multimedia** — Take pictures and video in a snap with the 2 megapixel camera with 4x digital zoom. Listen to your favorite music with the TELUS mobile music player.
- **Features at Your Fingertips** — Use touch sensitive buttons on the external display to activate the camera, start up the music player, or go to the call history list.

For more information: To download your phone's complete user's guide, or to see a Web tutorial. Visit www.motorola.ca/VE20support. For more information on accessories, go to www.hellomoto.com.

Note: Before using the phone for the first time, review the *Important Safety and Legal Information* guide included in the box. Periodically review this information so you remember how to safely use your phone.

get started

battery

install the battery

- 1 Press the battery cover release button. While still pressing the button, slide the cover down slightly and lift it off the phone.

- 2 With the gold contacts facing down and toward the lower end of the battery, insert the battery, lower end first.

- 3 Fit the battery cover back onto the phone and slide it forward into place.

9

get started

charge the battery

New batteries are not fully charged. Before you can use your phone, install and charge the battery. Some batteries perform best after several full charge/discharge cycles.

Using the charger:

- 1 Insert the charger into your phone's micro USB connector. Plug the other end of the charger into an electrical outlet.

- 2 When you see **Charge Complete**, unplug the charger.

When you charge the battery, the battery level indicator at the upper right of the screen shows charging progress. At least one segment of the indicator must be visible to ensure full phone functionality while charging.

Charging from your computer:

Note: Optional accessories required.

You can charge the battery by connecting a cable from your phone's micro USB port to a high-power USB connector on a computer (not a low-power one, such as

10

get started

the USB connector on your keyboard or bus-powered USB hub). Typically, USB high-power connectors are located directly on your computer.

Both your phone and your computer must be turned on, and you must have correct software drivers installed on your computer. Cables and software drivers are available in Motorola Original™ data kits, sold separately.

Note: For battery use and battery safety information, see your *User's Guide*.

Notes for charging your phone's battery:

- When charging your battery, keep it near room temperature. Never expose batteries to temperatures below 0°C (32°F) or above 45°C (113°F) when charging.
- New batteries are not fully charged.
- New batteries or batteries stored for a long time may take more time to charge.
- Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.

11

get started

memory card

Note: Optional accessory required.

install & remove memory card

- 1 Remove the battery door from your phone (see page 9). If necessary, remove the battery.
- 2 Slide the memory card cover back to unlock it, then lift it to expose the opening for the memory card.

12

get started

- With the gold contacts down, place the memory card into the card opening.

- Close the memory card cover, then slide it forward to lock it into place.

- Replace the battery and battery door.

Caution: Don't remove your memory card while your phone is using it or writing files to it.

To remove the memory card, slide the cover back to unlock it, then lift the cover and remove the card.

13

get started

format memory card

Caution: Formatting the memory card erases any data stored on the card.

Find it: > Settings > Storage Device

- Select **Memory Card** and press the center key .
- Select **Format Memory Card** and press the center key .

turn phone on & off

To turn on your phone, press and hold for a few seconds or until the display turns on. If prompted, enter your four-digit unlock code.

To turn off your phone, press and hold for two seconds.

14

get started

make & answer calls

To make a call, enter a phone number and press .

To answer a call, when your phone rings and/or vibrates, just open the flip or press .

To hang up, close the flip or press .

15

basics

getting around

- Press the *center key* to open the **Main Menu**.

- Press the *navigation key* up, down, right, or left, to highlight a menu option.

- Press the *center key* to select the highlighted option.

16

basics

home screen

Your phone shows the *home screen* when you are not on a call or using the menu:

Note: Your home screen might look different from the one shown, depending on your service provider.

Soft key labels in the home screen show the current soft key functions. *Indicators* provide important status information. See your *User's Guide* for more information about status indicators.

personalize

home screen shortcuts

From the home screen, you can press the navigation key up, down, left, or right as shortcuts to your favorite features. You can **change** the shortcuts to suit your needs:

Find it: > Settings > Phone > Shortcuts

Select a direction, then choose the feature you want to open when you press the navigation key in that direction.

You can **show** or **hide** icons in the home screen that indicate the shortcuts for the navigation key.

Find it: > Settings > Phone > Shortcuts > Show Shortcuts

Note: You can press to select the features in the home screen even when the icons are hidden.

personalize

TELUS Quick Find Powered by *i| QiX™*

Note: TELUS Quick Find must be set to **On** in order for TELUS Quick Find Powered by *i| QiX™* to work.

TELUS Quick Find Powered by *i| QiX™* is a discovery tool that helps you access the full range of features and services on your phone, quickly and easily, without having to remember where or how to locate them.

From the home screen, use the keypad to enter the name of a song, a phonebook entry, a filename for a video clip, menu options, or other items. As you enter letters, TELUS Quick Find Powered by *i| QiX™* will present you with a list of songs, phonebook entries, pictures, and other items that match the letters you enter.

personalize

Your phone ships with TELUS Quick Find Powered by *i| QiX™* activated. **To activate/deactivate** TELUS Quick Find Powered by *i| QiX™*:

Find it: > Settings > Phone > TELUS Quick Find

personalize

ringtones

To set ringtones for incoming calls and for other events (such as new messages):

First, set **Master Volume** to **High**, **Med High**, **Medium**, **Low Med**, **Low**, or **1 Beep**.

Next, select and assign ringtones.

set master volume

From the home screen, press the volume keys up or down to select a **Master Volume** setting:

High, **Med High**, **Medium**, **Low Med**, **Low**—Phone rings for incoming calls and other events, depending on the detail settings.

1 Beep—Phone beeps once to indicate an incoming call.

Vibrate Only—Phone vibrates to indicate an incoming call.

Alarm Only—Phone plays an audible alarm to alert you to events. You can't change detail settings for events.

All Sounds Off—Phone does not alert you to incoming calls and events.

21

personalize

select ringtones

To assign ringtones for calls:

Find it: > Settings > Sounds > Call Ringtone

❶ Select **Single Tone** to assign a single ringtone to incoming calls.

or

Select **Shuffle Multiple** to select downloaded ringtones to play randomly for incoming calls.

Note: **Contacts** entries with assigned Ringer IDs will not be affected. The **Shuffle Multiple** option works only with downloaded ringtones and depletes your battery's charge more quickly than **Single Tone**.

❷ If you selected **Single Tone**, scroll to the ringtone you want and press .

Note: Your phone plays each ringtone that you highlight.

or

22

personalize

If you selected **Shuffle Multiple**, scroll to each downloaded ringtone you want and press . After you select all of the ringtones you want, press **Done**.

❸ Press to return to the home screen.

To assign ringtones for incoming text, multimedia, or voicemail messages:

Find it: > Settings > Sounds

❶ Select **Message Ringtone** or **Voicemail Ringtone**.

❷ Scroll to the ringtone you want and press the center key .

Note: Your phone plays each ringtone that you highlight.

❸ Press to return to the home screen.

23

personalize

wallpaper

Set a photo, picture, or animation as a wallpaper (background) image in your home screen.

Find it: > Settings > Display > Wallpaper

❶ Select **Main Screen** (the screen you see when the flip is open) or **Front Screen** (the screen you see with the flip closed) and press the center key .

❷ To assign a single picture as a wallpaper, select **Single** and press the center key .

or

To select downloaded or captured pictures to be shown randomly as wallpapers, select **Shuffle Multiple** and press the center key . Acknowledge the message about **Shuffle Multiple** by pressing the center key .

❸ If you selected **Single**, scroll to the desired picture and press the center key .

or

24

personalize

If you selected **Shuffle Multiple**, scroll to each downloaded or captured picture you want and press the center key . When you have selected all of the pictures you want, press **Done**.

- 4 Press  to return to the home screen.

skins

Set the overall look and feel of your phone's screen.

Find it:  >  **Settings** > **Display** > **Skins**

- 1 Scroll to the name of a skin and press the center key .
- 2 Press  to return to the main screen.

25

touch sensitive buttons

using touch sensitive buttons

With your phone's flip closed, you can use touch sensitive buttons to view recent calls, play music, or turn on Bluetooth® power.

To activate the touch sensitive buttons, press the smart/speakerphone key.

26

touch sensitive buttons

Note: If the external display is not already lit, press the smart/speakerphone key once to turn it back on, and a second time to activate the touch sensitive buttons.

Whenever you press a touch sensitive button or touch control, **you'll feel a vibration** that confirms your selection.

If the external display times out while you are using the touch sensitive buttons or touch controls, **press the smart/speakerphone key** to turn it back on.

Tip: Lock the touch sensitive buttons when you aren't using them so you don't accidentally activate them when the flip is closed. **To lock** the touch sensitive buttons, **press and hold the smart/speakerphone key**. Press and hold the smart/speakerphone key again to unlock the touch sensitive buttons.

touch camera

To activate the phone's camera, press and hold the camera button. Your phone shows the camera viewfinder screen on the external display. Use the touch controls to zoom in and out and take a photo (see page 41).

27

touch sensitive buttons

touch music player

To activate TELUS mobile music or to resume music playback after closing the flip, press the music player button . Use the touch controls that appear on the screen to control music playback (see the next section).

touch recent calls

To see a list of all recent dialed, received, and missed calls press the recent calls button . The phone shows the **All Calls** list.

Press  and  to scroll up and down through the list of calls. Press  to call a highlighted number.

To exit the **All Calls** list and return to the idle external display, scroll to  **Back** and press **[OK]**.

28

introduction

TELUS mobile music lets you browse, preview and download music directly to your phone so you can listen to your favourite tunes while on the go. For more information on TELUS mobile music, please visit:

www.telusmobility.com/music.

If you use a headset with your phone, music plays through the headset. Music plays through the phone speaker when the headset is disconnected.

Note: Optional accessory required.

Note: The unauthorized copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright, or materials which you are authorized or legally permitted to copy. If you are uncertain about your right to copy any material, please contact your legal advisor.

transfer music

Before you transfer music to your phone:

- 1 Insert a memory card into your phone (see page 12).

Note: TELUS mobile music requires that you format the memory card (see page 14). All music files must be stored in the "my_music" folder on the memory card. If you download music from TELUS, this folder is already created. If not, create the "my_music" folder on your memory card (see page 31).

- 2 Set your phone to **Mass Storage** mode by pressing  >  **Settings** > **USB** > **Mass Storage**.

- 3 **Attach a Motorola Original USB cable**

to the micro USB port on your phone and to an available USB port on your computer. A Motorola Original USB cable and supporting software may be included with your phone. These tools are also sold separately.

- 4 Drag and drop songs or playlists onto the "my_music" folder.

Note: Do not delete the "Mobile" and "Motorola" folders.

- 5 When you finish, remove the phone safely from your computer:
 - **If you are using a PC**, right-click the "Safely Remove Hardware" icon in the system tray at the bottom of your computer screen, then select "USB Mass Storage Device."
 - **If you are using a Mac**, select and drag the "Removable Disk" icon to the Trash.

TELUS mobile music—flip closed

Play music directly on your phone so you can listen to your favorite tunes while on the go.

- 1 Make sure the touch sensitive buttons are unlocked (see page 27).
- 2 Press the smart/speakerphone key to activate the touch sensitive buttons.

Note: If the external display is not already lit, press the smart/speakerphone key once to turn it back on, and a second time to activate the touch sensitive buttons.

Your phone displays the **TELUS mobile music** menu, with the **touch controls** at the bottom.

music

3 To control music playback:

| touch controls | |
|----------------------------|----------------------|
| play/resume play | Press ▶. |
| pause | Press II. |
| skip to next song | Press & release ►► . |
| skip back to previous song | Press & release ◄◄. |

4 To exit the music player, open the flip and press .

33

music

TELUS mobile music—flip open

To activate your phone's music player **while the flip is open**:

Find it:  >  Music & Media > TELUS mobile music

Your phone displays the **TELUS mobile music** menu. You can now browse, preview, download, and play music directly on your phone.

The **TELUS mobile music** menu includes:

| option | |
|-----------|--|
| All Songs | Find & play a song. Note: All songs are listed here. If a song has Artist , Album , or Genre information, that information is included. |
| Artists | Find & play music by an artist. |
| Albums | Find & play music from an album. |
| Genres | Find & play music by genre (type of music) such as rock or jazz. |

34

music

Note: If you can't find artist, album, or genre information for a song in **Artists**, **Albums**, or **Genres**, the information may not be available. All songs, with or without this information, are listed in **All Songs**.

During a song, the music player shows the song title, artist, album, and artwork, if available.

Note: If you receive a call during a song, the music player pauses the song until the call is over.

Use these keys to control the music player during music playback:

| controls with flip open | |
|-------------------------|--|
| play/resume play | Press ▶. |
| fast forward | Press & hold ◂ right (for at least two seconds). |
| next song | Press & release ◂ right. |
| rewind | Press & hold ◃ left (for at least two seconds). |

35

music

controls with flip open

| | |
|-----------------------------|--|
| previous song | Within first two seconds of song, press & release ◃ left. |
| return to song beginning | After first two seconds of song, press & release ◃ left. |
| scroll up/down through list | Press ◂ up or down. |
| turn off music player | Press Back until you return to the Music Player menu, then press Exit . or Press  . |

customize music player

Find it:  >  Music & Media > TELUS mobile music

Press **Settings**, then select **Repeat Song**, **Expand Cover**, **Song Information**, **Song Library**, **Music Player Home**, **Shop**, or **Help**.

36

camera

take photos

The camera viewfinder appears on the external display when the flip is closed and on the internal display when the flip is open. **To get the sharpest photos, wipe the lens clean with a dry cloth before you take a photo.**

take a photo—flip open

With the phone powered on and the flip open:

- 1 Press the camera/camcorder key  to activate the camera.

Tip: You can also activate your phone's camera by pressing  >  **Music & Media** > **Camera**.

camera

Your phone shows the active camera viewfinder screen:

Tip: Press the camera/camcorder key  to toggle between the camera and camcorder.

- 2 Point the camera lens at the subject.
Press  right and left to zoom in and out.

To view other options, press **Options** (see page 40).

camera

- 3 Press the center key  to take the photo.
- 4 Press **Send** to save the photo and send it in a message.

Note: Network/subscription feature.

Select **in Message** to immediately send the photo in a message, or select **Online Album** to first save the photo to an online album. You will then see the **Msg** screen. You can now send the photo in a message (see your *User's Guide* for more information).

or

Press **Save** to save the photo and return to the camera viewfinder.

or

Press **Delete** to delete the photo and return to the active photo viewfinder.

- 5 Press  to return to the main screen.

camera

When the camera is active, press **Options** to view and select these options:

| option | |
|--------------------------|---|
| Resolution | Set resolution to 1600x1200 , 1280x960 , 640x480 , 320x240 , or Picture ID . |
| Self Timer | Set the camera to take a photo after a specific interval: 3 seconds , 5 seconds , or 10 seconds . Or turn it off. |
| Add Picture Frame | Select a custom frame for your photo. |
| Brightness | Adjust image brightness by scrolling left or right from -2 to 2 . |
| White Balance | Adjust for different lighting conditions by scrolling left or right to choose from Auto , Sunny , Cloudy , Tungsten , Fluorescent , or Darkness . |
| Color Effects | Scroll left or right to select Normal , Antique , Black & White , or Negative . |

51

Specific Absorption Rate Data

This model wireless phone meets the government's requirements for exposure to radio waves.

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government and by the Canadian regulatory authorities. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age or health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC and by the Canadian regulatory authorities is 1.6 W/kg.¹ Tests for SAR are conducted using standard operating positions accepted by the FCC and by Industry Canada with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station, the lower the power output.

Before a phone model is available for sale to the public in the U.S. and Canada, it must be tested and certified to the FCC and Industry Canada that it does not exceed the limit established by each government for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) reported to the FCC and available for

52

review by Industry Canada. The highest SAR value for this model phone when tested for use at the ear is 1.34 W/kg, and when worn on the body, as described in this user guide, is 0.97 W/kg. (Body-worn measurements differ among phone models, depending upon available accessories and regulatory requirements).²

While there may be differences between the SAR levels of various phones and at various positions, they all meet the governmental requirements for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines.

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site:

<http://www.phonefacts.net>

or the Canadian Wireless Telecommunications Association (CWTA) Web site:

<http://www.cwta.ca>

1. In the United States and Canada, the SAR limit for mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.
2. The SAR information includes the Motorola testing protocol, assessment procedure, and measurement uncertainty range for this product.

53

Safety and General Information

This section contains important information on the safe and efficient operation of your mobile device. Read this information before using your mobile device.

Exposure to Radio Frequency (RF) Energy

Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits.

Your Motorola mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

Operational Precautions

For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions.

Product Operation

When placing or receiving a phone call, hold your mobile device just like you would a landline phone.

If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved clip, holder, holster, case, or body harness. If you do not use a body-worn accessory supplied or approved by Motorola, keep the mobile device and its antenna at least 2.5 centimeters (1 inch) from your body when transmitting.

Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our Web site at:

www.motorola.com

54

RF Energy Interference/Compatibility

Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems

Turn off your mobile device in any location where posted notices instruct you to do so.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Implantable Medical Devices

If you have an implantable medical device, such as a pacemaker or defibrillator, consult your physician before using this mobile device.

Persons with implantable medical devices should observe the following precautions:

- ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical device when the mobile device is turned ON.
- DO NOT carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your healthcare provider.

55

Driving Precautions

The use of wireless phones while driving may cause distraction. Discontinue a call if you can't concentrate on driving.

Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

Responsible driving practices can be found in the "Smart Practices While Driving" section in this guide (or separate guide).

Operational Warnings

Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Atmospheres

Areas with potentially explosive atmospheres are often, but not always, posted and can include fueling areas, such as below decks on boats, fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.

When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Symbol Key

Your battery, charger, or mobile device may contain symbols, defined as follows:

| Symbol | Definition |
|--|--|
|  | Important safety information follows. |
|  | Do not dispose of your battery or mobile device in a fire. |

56

| Symbol | Definition |
|---|--|
|  | Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information. |
|  | Do not throw your battery or mobile device in the trash. |
|  | Do not let your battery, charger, or mobile device get wet. |
|  | Listening at full volume to music or voice through a headset may damage your hearing. |

Batteries & Chargers

Caution: Improper treatment or use of batteries may present a danger of fire, explosion, leakage, or other hazard. For more information, see the "battery use & safety" section in the user's guide.

Keep Your Mobile Device and Its Accessories Away From Small Children

These products are not toys and may be hazardous to children. For example:

- A choking hazard may exist for small, detachable parts.
- Improper use could result in loud sounds, possibly causing hearing injury.
- Improperly handled batteries could overheat and cause a burn.

57

Glass Parts

Some parts of your mobile device may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Seizures/Blackouts

Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when playing video games. These may occur even if a person has never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your physician before playing video games or enabling a flashing-lights feature (if available) on your mobile device.

Discontinue use and consult a physician if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. It is always a good idea to hold the screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour, and stop use if you are tired.

Caution About High Volume Usage

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

58

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

For more information about hearing, see our Web site at www.motorola.com/hearingsafety (in English only).

Repetitive Motion

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician.

[Mar0108]

Industry Canada Notice to Users

Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.1.5.

FCC Notice to Users

The following statement applies to all products that have received FCC approval. Applicable products bear the FCC logo, and/or an FCC ID in the format FCC-ID:xxxxxx on the product label.

Motorola has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment. See 47 CFR Sec. 15.21.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received,

59

including interference that may cause undesired operation. See 47 CFR Sec. 15.19(3).

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Motorola Limited Warranty for the United States and Canada

What Does this Warranty Cover?

Subject to the exclusions contained below, Motorola, Inc. warrants its telephones, pagers, messaging devices, and consumer and professional two-way radios (excluding commercial, government or industrial radios) that operate via Family Radio Service or General Mobile Radio Service, Motorola-branded or certified accessories sold for use with these

60

Products ("Accessories") and Motorola software contained on CD-ROMs or other tangible media and sold for use with these Products ("Software") to be free from defects in materials and workmanship under normal consumer usage for the period(s) outlined below. This limited warranty is a consumer's exclusive remedy, and applies as follows to new Motorola Products, Accessories and Software purchased by consumers in the United States or Canada, which are accompanied by this written warranty:

Products and Accessories

| Products Covered | Length of Coverage |
|---|---|
| Products and Accessories as defined above, unless otherwise provided for below. | One (1) year from the date of purchase by the first consumer purchaser of the product unless otherwise provided for below. |
| Decorative Accessories and Cases. Decorative covers, bezels, PhoneWrap™ covers and cases. | Limited lifetime warranty for the lifetime of ownership by the first consumer purchaser of the product. |
| Monaural Headsets. Ear buds and boom headsets that transmit mono sound through a wired connection. | Limited lifetime warranty for the lifetime of ownership by the first consumer purchaser of the product. |
| Consumer and Professional Two-Way Radio Accessories. | Ninety (90) days from the date of purchase by the first consumer purchaser of the product. |
| Products and Accessories that are Repaired or Replaced. | The balance of the original warranty or for ninety (90) days from the date returned to the consumer, whichever is longer. |

61

Exclusions

Normal Wear and Tear. Periodic maintenance, repair and replacement of parts due to normal wear and tear are excluded from coverage.

Batteries. Only batteries whose fully charged capacity falls below 80% of their rated capacity and batteries that leak are covered by this limited warranty.

Abuse & Misuse. Defects or damage that result from: (a) improper operation, storage, misuse or abuse, accident or neglect, such as physical damage (cracks, scratches, etc.) to the surface of the product resulting from misuse; (b) contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or the like, extreme heat, or food; (c) use of the Products or Accessories for commercial purposes or subjecting the Product or Accessory to abnormal usage or conditions; or (d) other acts which are not the fault of Motorola, are excluded from coverage.

Use of Non-Motorola Products and Accessories. Defects or damage that result from the use of non-Motorola branded or certified Products, Accessories, Software or other peripheral equipment are excluded from coverage.

Unauthorized Service or Modification. Defects or damages resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way by someone other than Motorola, or its authorized service centers, are excluded from coverage.

Altered Products. Products or Accessories with (a) serial numbers or date tags that have been removed, altered or obliterated; (b) broken seals or that show evidence of tampering; (c) mismatched board serial numbers; or (d) nonconforming or non-Motorola housings, or parts, are excluded from coverage.

Communication Services. Defects, damages, or the failure of Products, Accessories or Software due to any communication service or signal you may subscribe to or use with the Products Accessories or Software is excluded from coverage.

62

Software

| Products Covered | Length of Coverage |
|--|--|
| Software. Applies only to physical defects in the media that embodies the copy of the software (e.g. CD-ROM, or floppy disk). | Ninety (90) days from the date of purchase. |

Exclusions

Software Embodied in Physical Media. No warranty is made that the software will meet your requirements or will work in combination with any hardware or software applications provided by third parties, that the operation of the software products will be uninterrupted or error free, or that all defects in the software products will be corrected.

Software NOT Embodied in Physical Media. Software that is not embodied in physical media (e.g. software that is downloaded from the internet), is provided "as is" and without warranty.

Who Is Covered?

This warranty extends only to the first consumer purchaser, and is not transferable.

What Will Motorola Do?

Motorola, at its option, will at no charge repair, replace or refund the purchase price of any Products, Accessories or Software that does not conform to this warranty. We may use functionally equivalent reconditioned/refurbished/pre-owned or new Products, Accessories or parts. No data, software or applications added to your Product, Accessory or Software, including but not limited to personal contacts, games and ringer tones, will be reinstalled. To avoid losing such data, software and applications please create a back up prior to requesting service.

63

How to Obtain Warranty Service or Other Information

| | |
|--|---|
| USA | Phones: 1-800-331-6456 Pagers: 1-800-548-9954 Two-Way Radios and Messaging Devices: 1-800-353-2729 |
| Canada | All Products: 1-800-461-4575 |
| TTY | 1-888-390-6456 |
| For Accessories and Software , please call the telephone number designated above for the product with which they are used. | |

You will receive instructions on how to ship the Products, Accessories or Software, at your expense, to a Motorola Authorized Repair Center. To obtain service, you must include: (a) a copy of your receipt, bill of sale or other comparable proof of purchase; (b) a written description of the problem; (c) the name of your service provider, if applicable; (d) the name and location of the installation facility (if applicable) and, most importantly; (e) your address and telephone number.

What Other Limitations Are There?

ANY IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY, OTHERWISE THE REPAIR, REPLACEMENT, OR REFUND AS PROVIDED UNDER THIS EXPRESS LIMITED WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER, AND IS PROVIDED IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. IN NO EVENT SHALL MOTOROLA BE LIABLE, WHETHER IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, ACCESSORY OR SOFTWARE, OR

64

FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, OR LOSS OF REVENUE OR PROFITS, LOSS OF BUSINESS, LOSS OF INFORMATION OR DATA, SOFTWARE OR APPLICATIONS OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE ABILITY OR INABILITY TO USE THE PRODUCTS, ACCESSORIES OR SOFTWARE TO THE FULL EXTENT THESE DAMAGES MAY BE DISCLAIMED BY LAW.

Some states and jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or limitation on the length of an implied warranty, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or from one jurisdiction to another.

Laws in the United States and other countries preserve for Motorola certain exclusive rights for copyrighted Motorola software such as the exclusive rights to reproduce and distribute copies of the Motorola software. Motorola software may only be copied into, used in, and redistributed with, the Products associated with such Motorola software. No other use, including without limitation disassembly of such Motorola software or exercise of the exclusive rights reserved for Motorola, is permitted.

Hearing Aid Compatibility with Mobile Phones

Some Motorola phones are measured for compatibility with hearing aids. If the box for your particular model has "Rated for Hearing Aids" printed on it, the following explanation applies.

When some mobile phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune

65

than others to this interference noise, and phones also vary in the amount of interference they generate.

The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box.

The ratings are not guarantees. Results will vary depending on the user's hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device's telecoil ("T Switch" or "Telephone Switch") than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)

Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you find results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.

Information from the World Health Organization

Present scientific information does not indicate the need for any special precautions for the use of mobile phones. If you are concerned, you may want to limit your own or your children's RF exposure by limiting the

66

length of calls or by using handsfree devices to keep mobile phones away from your head and body.

Product Registration

Online Product Registration:

www.motorola.com/us/productregistration

Product registration is an important step toward enjoying your new Motorola product. Registering permits us to contact you for product or software updates and allows you to subscribe to updates on new products or special promotions. Registration is not required for warranty coverage.

Please retain your original dated sales receipt for your records. For warranty service of your Motorola Personal Communications Product you will need to provide a copy of your dated sales receipt to confirm warranty status.

Thank you for choosing a Motorola product.

Export Law Assurances

This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

67

Caring for the Environment by Recycling

This symbol on a Motorola product means the product should not be disposed of with household waste.

Disposal of your Mobile Device and Accessories

Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Center in your region. Details of Motorola approved national recycling schemes, and further information on Motorola recycling activities can be found at:

www.motorola.com/recycling

Disposal of your Mobile Device Packaging and User's Guide

Product packaging and user's guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

California Perchlorate Label

Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label:

"Perchlorate Material – special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate."

There is no special handling required by consumers.

68

Privacy and Data Security

Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- **Monitor access**—Keep your mobile device with you and do not leave it where others may have unmonitored access. Lock your device's keypad where this feature is available.
- **Keep software up to date**—If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device's security, install it as soon as possible.
- **Erase before recycling**—Delete personal information or data from your mobile device prior to disposing of it or turning it in for recycling. For step-by-step instructions on how to delete all personal information from your device, see the section entitled "master clear" or "delete data" in the user's guide.
Note: For information on backing up your mobile device data before erasing it, go to www.motorola.com and then navigate to the "downloads" section of the consumer Web page for "Motorola Backup" or "Motorola Phone Tools."
- **Understanding AGPS**—To provide location information for emergency calls, certain Motorola mobile devices incorporate *Assisted Global Positioning System* (AGPS) technology. AGPS technology also can be used in non-emergency applications to track and monitor a user's location—for example, to provide driving directions. Users who prefer not to permit such tracking and monitoring should avoid using such applications.

If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com, or contact your service provider.

69

Smart Practices While Driving

Drive Safe, Call Smart

Check the laws and regulations on the use of mobile devices and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas -- for example, handsfree use only. Go to www.motorola.com/callsmart (in English only) for more information.

Your mobile device lets you communicate by voice and data—almost anywhere, anytime, wherever wireless service is available and safe conditions allow. When driving a car, driving is your first responsibility. If you choose to use your mobile device while driving, remember the following tips:

- **Get to know your Motorola mobile device and its features such as speed dial and redial.** If available, these features help you to place your call without taking your attention off the road.
- **When available, use a handsfree device.** If possible, add an additional layer of convenience to your mobile device with one of the many Motorola Original handsfree accessories available today.
- **Position your mobile device within easy reach.** Be able to access your mobile device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, if possible, let your voicemail answer it for you.
- **Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy traffic or**

70

hazardous weather conditions. Rain, sleet, snow, ice, and even heavy traffic can be hazardous.

- **Do not take notes or look up phone numbers while driving.** Jotting down a "to do" list or going through your address book takes attention away from your primary responsibility—driving safely.
- **Dial sensibly and assess the traffic; if possible, place calls when your car is not moving or before pulling into traffic.** If you must make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.
- **Do not engage in stressful or emotional conversations that may be distracting.** Make people you are talking with aware you are driving and suspend conversations that can divert your attention away from the road.
- **Use your mobile device to call for help.** Dial 911 or other local emergency number in the case of fire, traffic accident, or medical emergencies.*
- **Use your mobile device to help others in emergencies.** If you see an auto accident, crime in progress, or other serious emergency where lives are in danger, call 911 or other local emergency number, as you would want others to do for you.*
- **Call roadside assistance or a special non-emergency wireless assistance number when necessary.** If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special non-emergency wireless number.*

* Wherever wireless phone service is available.
