*Multimedia Message Service (MMS) and EDGE high-speed data are subject to availability. Contact your service provider for more information.

Contents

Welcome to BlackBerry!

Whether you plan to use your BlackBerry® device for business or personal productivity, you have made an excellent choice! With powerful push-messaging, voice, web, and organizer features, BlackBerry is the all-in-one solution that is designed to keep you connected to the people, data, and resources that you need every day.

To begin using your BlackBerry device, you must set up and turn on the device, connect to the wireless network, and set up your supported email account. You can also choose to install the BlackBerry® Desktop Software so that you can connect your device to your computer for data synchronization and charging.

Take a moment to read this guide as well as any documents provided by your service provider. These resources provide important setup information and are designed to help you get the most from your BlackBerry device! Additional resources are listed in the back of this guide.

Setting up your device

Insert the SIM card

Your SIM card contains important information about your wireless service. Your SIM card might be inserted already.

Warning: Turn off your device before you insert or remove the SIM card. Do not scratch, bend, or expose the SIM card to static electricity or wet conditions.

1. Press the battery cover release button.
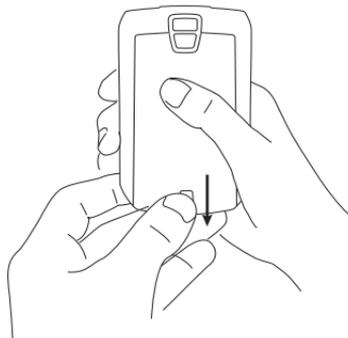

2. Slide off the battery cover.
3. If the battery is inserted, remove it.
4. Hold the SIM card with the metal contacts facing down so that the notches on the card align with the notches shown on your device.

5. Slide the SIM card into the holder so that it lies flat below the metal guide.
6. Continue to slide the SIM card into the holder until it stops. One end of the SIM card should be slightly hidden below the plastic casing on your device.

Note: To remove the SIM card, press gently on the top of the SIM card and slide it out of the holder.

Insert the battery

Warning: Use only the battery that Research In Motion© specifies for use with your device. See the Safety and Product Information booklet that accompanied your device for more information about using the battery safely.

1. Press the battery cover release button.
2. Slide off the battery cover.
3. Insert the battery so that the connectors on the battery align with the connectors on your device.
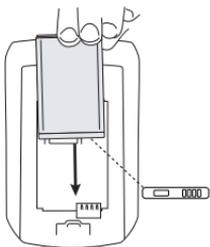

4. Replace the battery cover.

5. If the battery is charged, your device turns on and the confirm date and time dialog box appears.

   - If the date and time are incorrect, click **Edit**. See "Set the date and time" on page 14 for more information.

   - If the date and time are correct, click **OK**.

Charge the battery

1. Connect the small end of the USB cable to your device.

2. If required, slide the plug blade attachment into the power adapter.
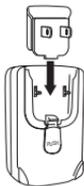

3. Plug the power adapter into a power outlet.

4. Charge the battery to full power.

Note: If you install the BlackBerry Desktop Software, you can charge your device by connecting it to your computer. See "Can I charge my device by connecting it to my computer?" on page 17 for more information.

Connect to the wireless network

On the device, if the power is off, press the **Power** button. Your device should connect to the wireless network automatically.

To connect to the wireless network successfully, your wireless service must be active, and you must be in a wireless network coverage area. See the wireless network coverage chart on the inside front cover of this guide for more information.

When your device is not connected to the wireless network, you can continue to use features that do not require a connection to the wireless network. For example, you can type and save draft email messages, manage tasks, or use the calculator.

Note: If you use BlackBerry Internet Service, the account setup process might begin automatically the first time that your device connects to the wireless network. See "Setting up for email using BlackBerry Internet Service" on page 9 for more information.

Choosing your email setup option

To begin sending and receiving email messages on your BlackBerry device, you must integrate your device with an email account using one of the following options.

BlackBerry Internet Service option

Use this option if one or more of the following situations apply:

- You purchased your device in a store.

- You want to set up a new email account for use with your device.

- You want to send and receive email messages on your device from one or more existing supported email accounts.

Note: To use this option, you must subscribe to a wireless service that supports email setup using BlackBerry Internet Service.

If this setup option applies to you, see "Setting up for email using BlackBerry Internet Service" on page 9 for more information.

BlackBerry Enterprise Server option

Use this option if all the following situations apply:

- A system administrator is managing a BlackBerry Enterprise Server™ within your company.

- A system administrator has confirmed that you are permitted to use the BlackBerry Enterprise Server.

- You want to receive messages from a corporate Microsoft® Outlook®, IBM® Lotus Notes®, or Novell® GroupWise® email account.

- Your supported email account resides on a Microsoft Exchange, IBM Lotus®Domino®, or Novell GroupWise email server.

- You subscribe to a wireless service that supports account setup using the BlackBerry Enterprise Server.

If this setup option applies to you, see "Setting up for email using BlackBerry Enterprise Server" on page 11 for more information.

Setting up for email using BlackBerry Internet Service

Create an account

To set up for email using BlackBerry Internet Service you must create an account. You can also add additional supported accounts for use with your device.

See your wireless service provider's documentation for more information about setting up for email using BlackBerry Internet Service.

Install the BlackBerry Desktop Software

Install the BlackBerry Desktop Software to perform any of the following actions:

- synchronize personal information management (PIM) data such as contacts, tasks, and appointments

- backup and restore device data

- load new device programs such as updated system software, games, and third-party personal information management programs

- charge your device using your computer

To install the desktop software, the following system requirements apply:

- Intel®-compatible 486 or higher computer that is compliant with USB 1.1 or later

- Windows®98, Windows ME, Windows 2000, or Windows XP

- Available USB port

- If you use Windows 98 (not Windows 98 Second Edition), you must download the DCOM 98 version 1.3 update from www.microsoft.com/com/default.mspx for the USB driver to operate as expected.

1. Insert the BlackBerry Desktop Software Installation CD into your CD drive.

2. Complete the on-screen instructions.

   - Select **BlackBerry Internet Service** as your account integration option.

3. When the installation is complete, connect the smaller end of the USB cable to your device.

4. Connect the larger end of the USB cable to an available USB port on your computer.

5. On the Windows taskbar, click **Start**.

6. Click **Programs > BlackBerry > Desktop Manager**.

Note: To find more information about the features of the BlackBerry Desktop Software, click **Help > Desktop Help Contents**.

Setting up for email using BlackBerry Enterprise Server

Your system administrator might set up your device for email on your behalf, or you might need to integrate your BlackBerry device with a supported email account yourself using one of the methods described here.

Use enterprise activation

If your system administrator has provided you with an enterprise activation password, you can integrate your supported email account directly from your device.

1. Verify that your device is connected to the wireless network and that you are in a wireless coverage area.
2. On your device, click **Enterprise Activation**.
3. Type your supported corporate email account address.
4. Type the enterprise activation password provided by your system administrator.
5. Click **Activate**.

Note: Your system administrator might request that you install the BlackBerry Device Manager program on your computer to reduce the amount of data that is sent over the wireless network when your device is connected to your computer.

Use the BlackBerry Desktop Software

If your system administrator does not provide you with an enterprise activation password, you can install the BlackBerry Desktop Software on your computer to integrate your device with your supported email account.

To install the desktop software, the following system requirements apply:

- Intel-compatible 486 or higher computer that is compliant with USB 1.1 or later

- Windows 98, Windows ME, Windows 2000, or Windows XP

- Available USB port

- If you use Windows 98 (not Windows 98 Second Edition), you must download the DCOM 98 version 1.3 update from www.microsoft.com/com/default.mspx for the USB driver to operate as expected.

1. Insert the BlackBerry Desktop Software Installation CD into your CD drive.
2. Complete the on-screen instructions.

   - Select **BlackBerry Enterprise Server or BlackBerry Desktop Redirector** as your account integration option.

   - Select **BlackBerry Enterprise Server** as your email redirection option.

3. When the installation is complete, connect the smaller end of the USB cable to your device.
4. Connect the larger end of the USB cable to an available USB port on your computer.
5. On the Windows taskbar, click **Start.**
6. Select **Programs > BlackBerry > Desktop Manager**.

   - When you are prompted to generate an encryption key, complete the on-screen instructions.

Note: To find out more information about the features of the BlackBerry Desktop Software, click **Help > Desktop Help Contents**.

How do I...

Make phone calls

On the Home screen, type a phone number. Press the **Send** key. To end the call, press the **End** key.

Notes: Press the **Send** key on any screen to open the phone.

Select a contact, call log, or phone number link on any screen and press the **Send** key to make a call.

To switch between the speaker and earpiece during a call, press the **Speaker** key.

Send email messages

You must set up a supported email account to use with your device before you can send and receive email messages. See " Choosing your email setup option" on page 7 for more information.

1. In the messages list, click the trackwheel.
2. Click **Compose Email**.
3. In the **To** field, type an email address or a contact name.
4. Type a message.
5. Click the trackwheel.
6. Click **Send**.

Note: If your device is integrated with more than one email account, you can select an account to send the message from. At the top of the message, in the **Send Using** field, press the **Space** key until the preferred email account appears.

Send PIN messages

A personal identification number (PIN) uniquely identifies each BlackBerry device on the network. If you know the PIN of another BlackBerry device user, you can send a PIN message to that person. To find your PIN, in the device options, click **Status**.

1. In the messages list, click the trackwheel.
2. Click **Compose PIN**.
3. In the **To** field, type a PIN or a contact name.
4. Type a message.
5. Click the trackwheel.
6. Click **Send**.

Send SMS (text) messages

1. In the messages list, click the trackwheel.
2. Click **Compose SMS**.
3. Click **[Use Once]**.
4. Click **SMS**.
5. Click **Phone**.
6. Type an SMS-compatible phone number.
7. Click the trackwheel.
8. Click **Continue**.
9. Type a message.
10. Click the trackwheel.
11. Click **Send**.

Send MMS (mutimedia) messages

1. In the messages list, click the trackwheel.
2. Click **Compose MMS.**
3. Click **[Use Once].**
4. Click **MMS.**
5. Select a send method for your MMS message.
6. Type an MMS-compatible phone number or an email address.
7. Click the trackwheel.
8. Click **Continue.**

9. Type a message.

10. Click the trackwheel.

11. Click **Attach Address, Attach Appointment,** or **Attach Picture.**

12. Click a contact, appointment, or image.

13. Click **Continue**.

14. Click the trackwheel.

15. Click **Send.**

Add contacts

1. In the address book, click the trackwheel.

2. Click **New Address**.

3. Type the contact information.

4. Click the trackwheel.

5. Click **Save**.

Add SIM card contacts to your address book

If you have saved contact information on your SIM card, you can copy that information into the address book on your device.

1. In the address book, click the trackwheel.

2. Click **SIM Phone Book**.

3. Click the trackwheel. Click **Copy All To Address Book**.

Go to web pages

1. In the browser, click the trackwheel.

2. Click **Go To**.

3. Type a web address.

4. Click the trackwheel.

5. Click **OK**.

Notes: To insert a period, press the **Space** key.

To insert a slash mark (/), press the **Shift** key + the **Space** key.

The **Go To** dialog box tracks the web addresses that you type. To go to a web page on the list, click the web address. Click **OK**.

Set a device password

1. In the device options, click **Security Options**.

2. Click **General Settings**.

3. Set the **Password** field to **Enabled**.

4. Set the other security options.

5. Click the trackwheel.

6. Click **Save**.

7. Type a device password.

8. Click the trackwheel.

9. Retype the device password.

10. Click the trackwheel.

Lock and unlock the device

With a device password set, on the Home screen, click **Lock**.

To unlock your device, on the Lock screen, roll the trackwheel. Click **Unlock**. Type your password. Press the **Enter** key.

Note: When the device is locked, you should be able to make an emergency call without dialing the emergency access number. Click **Emergency Call**. Click **Yes**.

Set the date and time

1. In the device options, click **Date/Time**.

2. Set the **Time Zone** field.

3. In the **Date/Time Source** field, set a date and time source.

4. Click the trackwheel.

5. Click **Update Time**.

6. Click the trackwheel.

7. Click **Save**.

Note: To set the date and time yourself, set the **Date/Time Source** field to **Off**. Set the other fields on the Date/Time screen to display the correct date and time. Save your changes.

Enable profiles

In the profiles list, click a notification profile. **Click Enable**.

Note: To change the current notification profile quickly, select a profile. Press the **Space** key.

Turn on or off the Bluetooth radio

To turn on the Bluetooth® radio, in the device options, click **Bluetooth**. Click the trackwheel. Click **Enable Bluetooth**.

To turn off the Bluetooth radio, in the device options, click **Bluetooth**. Click the trackwheel. Click **Disable Bluetooth**.

Pair with another Bluetooth-enabled device

1. In the device options, click **Bluetooth**.

2. Click the trackwheel.

3. Click **Add Device**.

4. Click the name of a Bluetooth-enabled device.

5. In the **Enter passkey for <device name>** field, type a passkey.

6. Type the same passkey on the Bluetooth-enabled device to which you are pairing.

Notes: Verify that the Bluetooth-enabled device that you want to pair with is in the correct mode for pairing.

The names of Bluetooth-enabled devices with which you have already paired appear in the list of paired Bluetooth-enabled devices. They do not appear in the list of Bluetooth-enabled devices that appears when you click **Add Device**.

Find help with other features

To access a list of topics that are associated with the program that you are using, in a program, click the trackwheel. Click Help.

To open the main list of topics for all programs, on any Help Screen, click the trackwheel. Click Index.

Frequently asked questions

Why does my device not turn on?

The power might be off. Press the **Power** button.

The battery might not be charged. See "Charge the battery" on page 6 for more information.

Why does my device not charge?

A connection might not be complete. Check that all cables and plugs are fully inserted into ports and power outlets. See " Charge the battery" on page 6 for more information.

The battery might not be inserted properly. Remove and reinsert the battery. Verify that the connectors align. See "Insert the battery" on page 5 for more information.

If you connect your device to the computer to charge, verify that the computer is turned on. If you connect your device to the computer using a USB hub, the hub must be self powered to provide enough power to charge your device.

Can I charge my device by connecting it to my computer?

If you have installed the BlackBerry Desktop Software or the BlackBerry Device Manager on your computer you can connect your device to the computer to charge the battery.

1. Verify that the computer is turned on.

2. Connect the smaller end of the USB cable to your device.

3. Connect the larger end of the USB cable to an available USB port on your computer.

Note: To find more help with connecting your device to the computer, in the desktop software, click **Help** to view the *BlackBerry Desktop Software Online Help*.

Why can I not send or receive email messages?

Verify that your device is connected to the wireless network and that you are in a wireless coverage area. See "Connect to the wireless network" on page 6 for more information.

Verify that you have set up a supported email account for use with your device. See "Choosing your email setup option" on page 7 for more information.

If you continue to be unable to send and receive messages, reset your device by removing and reinserting the battery.

Note: To find more help with sending and receiving email messages, in messages list, click the trackwheel. Click **Help > Email Messages.**

Can I integrate my device with a corporate email account if I do not have access to a BlackBerry Enterprise Server?

If you use Microsoft Outlook (Workgroup installation) with an email account on a Microsoft Exchange Server version 5.5 or later and your device does not have access to a BlackBerry Enterprise Server, your system administrator might permit you to install the BlackBerry Desktop Redirector on your computer to integrate your device with your supported email account.

To integrate your device with a supported email account using the BlackBerry Desktop Redirector, when you install the BlackBerry Desktop Software, select **BlackBerry Desktop Redirector** as your message redirection option. See "Use the BlackBerry Desktop Software" on page 11 for more information about installing the BlackBerry Desktop Software.

Your computer must be on and the BlackBerry Desktop Redirector must be running to send and receive messages on your device.

Can I set up for email using both the BlackBerry Enterprise Server and BlackBerry Internet Service?

If your wireless service permits email setup using more than one service, complete the steps in "Setting up for email using BlackBerry Enterprise Server" on page 11 followed by the steps in "Setting up for email using BlackBerry Internet Service" on page 9.

Contact your service provider for more information about availability and the fees that might be associated with email setup using both BlackBerry Enterprise Server and BlackBerry Internet Service.

How do I reset my device?

To reset your device hardware and programs, remove and then reinsert the battery.

How do I clean the screen?

Clean the screen and device using only a soft dry cloth. Do not use liquid, aerosol cleaners, or solvents on or near your device. Disconnect any cables from the computer and unplug any charging accessories from the electrical outlet before cleaning.

Note: See the *BlackBerry Wireless Device Safety and Product Information* for more information about caring for your device.

Where can I buy accessories for my device?

You can buy approved accessories for your device online at:

www.shopblackberry.com

Note: Use only those accessories approved by Research In Motion (RIM) for use with your particular device model. Using any accessories not approved by RIM for use with your particular device model might invalidate any approval or warranty applicable to the device and might be dangerous.

Where can I download games and ring tones for my device?

Many third-party vendors offer games, ring tones, and other programs for your device online. You can download new programs using your device browser, or download them using your computer and load them onto your device using the Application Loader tool of the BlackBerry Desktop Software.

For example, you can visit the following web site using the browser on your device:

mobile.blackberry.com

Note: Your use of third party software shall be governed by and subject to you agreeing to the terms of separate software licenses, if any, for those products or services. Any third party products or services that are provided with RIM's products and services are provided "as is". RIM makes no representation, warranty or guarantee whatsoever in relation to the third party products or services and RIM assumes no liability whatsoever in relation to the third party products and services even if RIM has been advised of the possibility of such damages or can anticipate such damages.

Why does the screen on my device turn off?

When you do not use your device for a period of time, the screen turns off to conserve battery power. Roll the trackwheel or press any key to turn the screen on again.
