Speak Out When It Matters

Sometimes your opinion needs to be read, but sometimes it demands to be heard. The Touch Pro2 is equipped with a spacious keyboard that makes it a breeze to get your message out. But when written word is not enough, it only takes one touch to respond to an email with the urgency of a phone call.

Conference Calls … Made Easy

Before today, the simple task of multi-party calling required the nimblest of maneuvering around your phone menus. Now, HTC Touch Pro2 introduces a new worry-free interface that makes multi-party calling as easy as tapping on your contacts.

Straight Talk™

Nothing ruins a conference call faster than not being able to hear what is said, or make yourself heard. The HTC Touch Pro2, featuring Straight Talk™ technology, puts crystal-clear sound quality and voice reception at the core of its design. In fact, it is a palm-size professional conference phone with a loudspeaker and dedicated noise-cancelling microphone that delivers superior quality conference calls.

Standout Applications

WorldCard Mobile™

Enables the device to take a picture of a business card and instantly create a contact.

1. From the HOME screen, press soft key for "Programs", then "All Programs", scroll down to WorldCard Mobile, select to launch the application.
2. Select the camera icon, take a picture of a business card, press "return" arrow, then select "recognize" to see the data read into contact fields. Press "ok" and check your contact.

TIP: Go back to camera and take a picture of the person using "contacts" mode to add their picture to the business card data in contacts! EASY!!!

JETCET Print™

Print on the fly! JETCET Print enables Wi-Fi and Bluetooth printing directly from the HTC Touch Pro2.

1. From the HOME screen, press soft key for "Programs", then "All Programs", scroll down to JETCET Print and select to begin.
2. Select the printer type to add, either Network printer or Bluetooth, follow the instructions and print directly from your device.
3. Print hard copies from any application, including contacts, text messags, email, Word, Excel, and PowerPoint
